

TRAIN BROKE THROUGH WEAK BRIDGE AND PLUNGED INTO SWOLLEN STREAM

Six Trainmen on the Cleveland & Pittsburg Main Line Went Down to Instant Death, and Others Are Injured and More or Less.

THE VICTIMS ARE WELLSVILLE MEN

Disaster Occurred Near Irondale Where a Double Header Freight Went Through a Bridge That the Floods Had Rendered Insecure—Wreck Train and Relief Force Hurried to the Scene As Rapidly as Possible.

Six men killed outright and several seriously injured, sums up the result of a horrible accident which occurred on the Cleveland & Pittsburg railroad this morning three miles from Irondale station. Two engines drawing two cabooses, going at full speed crashed through a bridge, which had been weakened by the recent floods, and the entire train was precipitated into the stream. The dead are:

THE DEAD

J. F. MAAS, engineer, Wellsville
GEORGE PHILLIPS, conductor, Wellsville.
HENDERSON, fireman, Wellsville.
THOMAS KEER, extra fireman, Wellsville.
KING, brakeman, Wellsville.
J. J. KOUNTZ, brakeman, Wellsville.

THE INJURED.

Following are the injured:
EMMET RUSSELL, engineer, one rib broken.
THOMAS GRAFTON, fireman, slight scalp wound.
E. DOOTY, conductor, bruised and slightly injured.
GEORGE P. McDERMOTT, flagman, back injured; not serious.

The horrible scenes immediately following the disaster banter description, and no one of a number of eye witnesses are able to give an intelligent explanation of the terrible affair. On account of the heavy cars and broken timbers several of the men were pinioned to the earth at the bottom of the stream, and it was impossible to recover the bodies for hours. Several of the corpses could be seen just beneath the surface, but until the arrival of the wreck train they could not be released.

As soon as it was possible to get information to the railroad officials at Wellsville the wreck train was sent for, and within a few minutes after the word was received a full crew of workmen, the wrecking apparatus and a relief car with railway physicians and nurses was speeding toward Irondale.

THE CAUSE AND RESULT OF THE BIG DISASTER

Bridge 55, one-half mile east of Hammondsville, was the scene of the disaster. It was the east abutment. The weakening of the bridge was discovered by a man supposed to be George Close. Close went to the home of John W. Lucas, a few rods further east and told him of the condition of the bridge.

Lucas, thinking there were no trains east bound, ran to Yellow Creek station and notified the operator.

Trainmaster Dawson at 6 o'clock this morning was advised of the alleged unsafe condition of the bridge. He ordered a shifter to go and inspect the bridge and at Yellow Creek he was notified of the disaster. Dawson was the first official to reach the scene.

"High water undermined the abutment of bridge 55," said Trainmaster Dawson. "The weakening occurred under the water."

The train crews were working on washouts and damaged bridges between Hammondsville and Salineville. Their duties were to clean up the yards at that point. They finished this morning and were coming to the Wellsville shops.

The train was made up of engines 7575 and 7617 with two cabooses.

ENGINES AND CABOSES
WENT INTO THE CREEK.

One of the engines was "dead" and was being taken to the shops. The pilot engine, when it struck the weakened portion of the bridge, it collapsed. The two engines and their cabooses went into Yellow Creek, the foremost being submerged in ten feet of water. One engine and one caboose is completely under water, being entirely out of sight.

The tender of one engine is lying upside down on the east bank of the creek. The rear caboose is overturned, lying on the bridge ten feet from the west abutment.

The west end of the bridge was not broken, the iron work being twisted in all manner of shapes. The high waters of the last few days have nearly covered the bridge and it now hangs a twisted wreck beneath the surface. The west abutment of the bridge appears to be cracked by the weight of the engine.

Division Operator J. G. Moore summoned Drs. Hutchison and Tarr, who, with other railroad officials, telegraph men and an operator, were taken to the disaster in a special train.

WORK OF RESCUE

WAS TERRIBLE.

The work of taking the dead men from beneath the wreck was a sickening sight. The faces of some were mangled beyond recognition. Three bodies could be seen underneath the wreckage. One of the trucks of a tender was lying on the back of the fireman of the first engine. The first truck to be lifted to the bank exposed the body of Engineer Keer. His hand was on the throttle, and he must have died instantly. A human chain was formed and the body of the dead engineer was brought to the top of the bank with difficulty. The body was placed on a stretcher and placed in the baggage car of the special train. The work of extracting the other bodies underneath the wreckage was a tedious task.

Fireman Thomas Grafton, who was only slightly injured, went to the Lucas home near where the accident occurred, and asked for a match. Although injured, he wanted to rescue his fellow workmen, whom he thought might still be alive under the wreck or in the cabooses.

TRAIN WITH THE DEAD
REACHES WELLSVILLE.

The train with the dead bodies aboard arrived at Wellsville this afternoon where they are to be prepared for interment.

Conductor George Phillips was a brother of Benjamin Phillips, a former railroad man. A sister, Miss Mamie, teaches room 11 at the Central school, Wellsville. A brother is employed as a tailor by Julius Goetz.

Engineer Jacob Maas is a son of Martin Maas. He resided at Eighteenth and Clark streets. A wife and four children survive. One son is employed at the rolling mill.

Conductor Edward Dooty is a nephew of Robert Galvin.

Thomas Keer is an extra fireman. He was out learning the road and was riding to Wellsville in a caboose.

Little is known about Brakeman King.

THOMAS POWELL

AMONG THE DEAD

WAS WORKING FOR C. & P. UNDER
NAME OF KERR.

Gave the Assumed Name That He
Might Not Lose His Former Position.

It developed shortly after 3 o'clock when the bodies of the dead had been brought to Wellsville and identified by anxious friends, that Thomas Powell, a well known East Liverpool street railway employee, was among the victims.

Powell, it seems, had been at work for the railroad company only a few days and went under the assumed name of Keer or Kerr, the reason being that he did not want to lose his job on the street railway until assured of a steady place on the C. & P.

Powell was fully identified by Thomas McNutt, one of his associates on the street railway.

Three of the bodies of the victims were taken to Haugh's and three to McLane's undertaking rooms.

Powell was a single man and an old employee of the East Liverpool street railway.

OTHER ARRESTS MADE

Clara Moore, better known as "Hi Ki," was the central figure in police court this morning. She was arrested last night on Smoky Row by Officer McDermott, who has landed her in jail so many times that she can see visions of a cell every time he appears on his beat. The charge against Clara was drunk and disorderly.

When the arresting officer ran into the debased girl she was in company with her lover, Joe Brighthouse, who always manages to occupy a cell every time Clara does. The whole trouble was caused by flirtation on the part of Clara. She and Joe were out for a little promenade when they met a number of young men in front of Moon's restaurant. Clara cast an eagle eye at one of the fellows, but was not sly enough to keep Joe from seeing the act. Joe became enraged in a moment and instead of wreaking vengeance on the young man he turned his attention to the coquette. She was his match and had the officer remained off that particular portion of his beat both would have been fighting yet.

Neither showed any signs of the combat this morning. Clara being too lengthy for Joe to reach her optics to allow her to pound his glimmers. When they were taken to the jail and separated Joe broke down as usual and the manner in which he wailed was something fierce. He wanted to kiss and make up, but the officer would not allow any such display so soon after the storm and compelled little Joie to spend the night alone. Clara was only locked up a few minutes, being released upon the placing of a bond by Mrs. Stella Meyers, for whom she works. Each was fined \$2 and costs this morning.

There was but one other arrest during the night, the victim being Howard Sheckler, of Wellsville. Officer Todd found him caressing a pole near Locust street shortly before midnight and he summoned the wagon and had him hauled to jail. Sheckler said this morning that he was sick yesterday, having a severe cold and his condition was due to his attempt to take the prescription of a friend, who told him to get a quart of whiskey, go to bed after placing his hat on the foot board and then drink until he saw two hats. Doing this resulted in his arrest. He was fined the customary amount.

HEARING DENIED TO J. C. WALSH

Temperance Committee Ruled That
His Appearance Was Out
of Order.

Columbus, March 5.—(Special.)—John C. Walsh, of East Liverpool, who came here to speak before the house temperance committee, was denied a hearing by the committee because, it is stated, no arrangements had been made by Joe Miller, secretary of the brewers' organization, which is at the head of the opposition to the local option bill, to have him speak. It seems that Miller prepared a program which did not include Mr. Walsh and when the latter attempted to speak he was ruled out of order.

Mr. Walsh was very indignant over being shut out. His voluminous petition, containing 2,000 odd signers, protesting against the passage of the local option bill, he placed in the hands of Representative Crist.

AN AGED CITIZEN BADLY BEATEN

Held Up Near the Power House
Last Night By Desperate
Footpads.

SAVED BY CAR CONDUCTOR

Injured Man Found With Blood
Streaming from Cuts About the
Head—Said He Was Struck And
Felled to the Ground.

Taking advantage of the impaired traffic on the street car line foot pads made the railroad between the city proper and the East End the scene of their operations last night. One man, who gave his name as Sam Kraus, was held up and badly beaten by the highwayman, according to the story told to Conductor Charles Kontner, of the East Liverpool line. Is it thought that the name given by the man is an alias, used to keep his real identity from the public.

Conductor Kontner and a companion, with whom he is not acquainted, walked from the Second street switch to the car barns at 9 o'clock last night. Many people were using the tracks between the points, as the cars were not running on account of the high water. They had reached the west end of the power house when they heard a scuffle on the railroad track at a point where the street intersects it. They hurried to the scene and upon their approach two men fled in the direction of East Liverpool.

They found Kraus with blood streaming down his face from severe cuts about the head. Kraus was in a dazed condition and could not tell a coherent story of the affair. He stated that he was walking to the East End when two men approached him and asked him the time of night. He at once suspected that the men were footpads and did not take out his watch. The men came closer and one of them struck him over the head, felling him to the ground. He was dealt several other blows while the men were trying to secure his watch and valuables. Although Kraus is almost 60 years old and a veteran of the civil war he is well preserved and fought the men desperately. He was about to succumb, however, when the footpads were frightened away.

Street car men state that there have been several attempted holdups lately.

UNKNOWN ALIEN WAS DROWNED

ITALIAN JUMPED FROM TRAIN IN
TO SWOLLEN CREEK.

Missed His Calculation, Expecting to
Strike on Dry Land—Reward Of-
fered for Body.

An unknown Italian who had been employed by the C. A. Sims construction crew lost his life by drowning at the railroad bridge near Wellsville station last evening. He was on a gravel train, which was standing on the bridge and tried to jump off onto the ground. He miscalculated, and jumped into the water and was swiftly dragged under by the current.

The dead man has two brothers in Wellsville and they offered a reward of \$100 for the recovery of the body. The police searched nearly all night, but without success.

THE MARY TRADER WENT UNDER WATER

Houseboat, Floated By the Flood, Was
Sunk But May Be
Saved.

The houseboat, Mary Trader, left high and dry on the public road near the National pottery by the January flood, was floated again yesterday. The boat was badly damaged and sunk a few minutes after reaching the water. She is tied fast to the bank and an effort will be made to save her.

It is alleged that the boat was deserted by the owner, C. W. Willis, a short time after she was beached in the road, Willis realizing that it would cost more than the boat is worth to move her. It is stated that several local people have mortgages on the boat.

TRUSTED EMPLOYE ROBBED THE TELEPHONE COMPANY

After Many Months An Electric Battery Trapped Him and He Was Caught Red-Handed.

COLUMBIANA COUNTY EXCHANGE MYSTERY

In spite of the vigilance of the police, the strategy of those connected with the home office and the united efforts of those under suspicion to cover up their tracks, the management of the Columbiana County Telephone company has been missing large sums of money at intervals during the past year. This week the company has succeeded in placing its hands upon the guilty party, and that he is not now behind prison bars is due to the leniency shown one, who, since the disclosure, is no longer an employee of the company. He is a man who has been above reproach so far as his reputation was concerned.

The first shortage was reported to the police several months ago, when the "toll" returned to work one morning and discovered that a large sum had been taken from the till. Though an effort was made to fix the blame on a number of girls employed in the exchange, a thorough investigation failed to secure sufficient evidence to hold any one of the suspects, and the matter, after much annoyance to the company and intense agitation on the part of those involved, was allowed to drop.

No sooner had the excitement over the first loss died out than another was reported. The local officials as well as those from a distance were notified, and this time the investigation lasted longer and was of a more thorough nature. The best they could do, however, was to follow the inquiry to a certain point and then give it up, since the suspicion rested upon no one in particular and every one connected with the local exchange in general. The authorities were tempted at length to make a few arrests, and were only prevented from doing so by the fact that there was no positive evidence upon which to hold the party.

When the investigation was put on foot the management had little doubt that the suspected one had taken possession of the money, but being able to prove it was an entirely different matter. It was shown that a man formerly in the employ of the company had direct access to the money and had

STREETS IN NEED OF SPEEDY REPAIR

Service Board Will Ask Council for
a Big Appropri-
ation.

LOSS BY FLOOD WAS GREAT

The board of public service will ask council on next Tuesday evening to pass an appropriation ordinance for the purpose of purchasing the necessary new equipment for the pumping station and it will also ask for an appropriation of several thousand dollars to be used in repairing the streets and other sections of the city that were damaged by the recent storm. If council sees fit to make the latter appropriation it will do so under the emergency clause.

Street Commissioner Dickey yesterday made an inspection of the city and reported the conditions to the board last evening. The commissioner was of the opinion that it would be necessary to have between \$2,000 and \$3,000 to do the work. The board has no money and it will be compelled to look to council for the amount. The streets and other damaged spots must be repaired and the board anticipates no trouble in getting the appropriation. The sections of the city needing repair the worst are in the East End and West End. While the commissioner placed the figure of loss, he really had nothing to base the estimate on and it is probable that several more thousands will be necessary.

PLUMBERS MUST HAVE PERMITS

Otherwise They Will Not Be Al-
lowed to Dig Up City
Streets.

SERVICE BOARD ORDERS

Plumbers in the city will receive no more permits for excavating unless they have an order from the city engineer and the street commissioner. Neither will they be relieved from responsibility until the two officials referred to sanction their work. The board of public service agreed on the above at the regular meeting held last evening.

Report was made to the members that the condition of Avondale street and Calcutta road, together with a number of others, is alarming as the result of gross neglect on the part of a well known plumber. It is alleged that he tore up the thoroughfares about 60 days ago and did some plumbing work and then neglected to properly fill the holes. When the dashing rain piled its way down the hills the water furrowed long gutters where the bricks were loosened and now somebody must stand for the repair of the damaged places.

The plumber alleged to be responsible for the damage was before the board and stated that he left the streets untamped because he thought it would be better to delay the work until after the freezing weather desisted. There was much wrangling over the matter, and it was finally agreed

Doing this resulted in his arrest. He was fined the customary amount.

There was but one other arrest during the night, the victim being Howard Sheckler, of Wellsville. Officer Todd found him caressing a pole near Locust street shortly before midnight and he summoned the wagon and had him hauled to jail. AN AGED CITIZEN BADLY BEATEN

Held Up Near the Power House
Last Night By Desperate
Footpads.

SAVED BY CAR CONDUCTOR

Injured Man Found With Blood
Streaming from Cuts About the
Head—Said He Was Struck And
Felled to the Ground.

Taking advantage of the impaired traffic on the street car line foot pads made the railroad between the city proper and the East End the scene of their operations last night. One man, who gave his name as Sam Kraus, was held up and badly beaten by the highwayman, according to the story told to Conductor Charles Kontnir, of the East Liverpool line. Is it thought that the name given by the man is an alias, used to keep his real identity from the public.

Conductor Kontnir and a companion, with whom he is not acquainted, walked from the Second street switch to the car barns at 9 o'clock last night. Many people were using the tracks between the points, as the cars were not running on account of the high water. They had reached the west end of the power house when they heard a scuffle on the railroad track at a point where the street intersects it. They hurried to the scene and upon their approach two men fled in the direction of East Liverpool.

They found Kraus with blood streaming down his face from severe cuts about the head. Kraus was in a dazed condition and could not tell a coherent story of the affair. He stated that he was walking to the East End when two men approached him and asked him the time of night. He at once suspected that the men were footpads and did not take out his watch. The men came closer and one of them struck him over the head, felling him to the ground. He was dealt several other blows while the men were trying to secure his watch and valuables. Although Kraus is almost 60 years old and a veteran of the civil war he is well preserved and fought the men desperately. He was about to succumb, however, when the footpads were frightened away.

Street car men state that there have been several attempted holdups lately.

UNKNOWN ALIEN WAS DROWNED

ITALIAN JUMPED FROM TRAIN INTO
SWOLLEN CREEK.

Missed His Calculation, Expecting to
Strike on Dry Land—Reward Offered
for Body.

An unknown Italian who had been employed by the C. A. Sims construction crew lost his life by drowning at the railroad bridge near Wellsville station last evening. He was on a gravel train, which was standing on the bridge and tried to jump off onto the ground. He miscalculated and jumped into the water and was swiftly dragged under by the current.

The dead man has two brothers in Wellsville and they offered a reward of \$100 for the recovery of the body. The police searched nearly all night, but without success.

THE MARY TRADER WENT UNDER WATER

Houseboat, Floated By the Flood, Was
Sunk But May Be
Saved.

The houseboat, Mary Trader, left high and dry on the public road near the National pottery by the January flood, was floated again yesterday. The boat was badly damaged and sunk a few minutes after reaching the water. She is tied fast to the bank and an effort will be made to save her.

It is alleged that the boat was deserted by the owner, C. W. Willis, a short time after she was beached in the road, Willis realizing that it would cost more than the boat is worth to move her. It is stated that several local people have mortgages on the boat.

TRUSTED EMPLOYEE ROBBED THE TELEPHONE COMPANY

After Many Months An Electric Battery Trapped
Him and He Was Caught
Red-Handed.

COLUMBIANA COUNTY EXCHANGE MYSTERY

In spite of the vigilance of the police, the strategy of those connected with the home office and the united efforts of those under suspicion to cover up their tracks, the management of the Columbiana County Telephone company has been missing large sums of money at intervals during the past year. This week the company has succeeded in placing its hands upon the guilty party, and that he is not now behind prison bars is due to the leniency shown one, who, since the disclosure, is no longer an employee of the company. He is a man who has been above reproach so far as his reputation was concerned.

The first shortage was reported to the police several months ago, when the "toll" returned to work one morning and discovered that a large sum had been taken from the till. Though an effort was made to fix the blame on a number of girls employed in the exchange, a thorough investigation failed to secure sufficient evidence to hold any one of the suspects, and the matter, after much annoyance to the company and intense agitation on the part of those involved, was allowed to drop.

No sooner had the excitement over the first loss died out than another was reported. The local officials as well as those from a distance were notified, and this time the investigation lasted longer and was of a more thorough nature. The best they could do, however, was to follow the inquiry to a certain point and then give it up, since the suspicion rested upon no one in particular and every one connected with the local exchange in general.

The authorities were tempted at length to make a few arrests, and were only prevented from doing so by the fact that there was no positive evidence upon which to hold the party.

When the investigation was put on foot the management had little doubt that the suspected one had taken possession of the money, but being able to prove it was an entirely different matter. It was shown that a man formerly in the employ of the company had direct access to the money and had

STREETS IN NEED OF SPEEDY REPAIR

Service Board Will Ask Council for
a Big Appropriation.

LOSS BY FLOOD WAS GREAT

The board of public service will ask council on next Tuesday evening to pass an appropriation ordinance for the purpose of purchasing the necessary new equipment for the pumping station and it will also ask for an appropriation of several thousand dollars to be used in repairing the streets and other sections of the city that were damaged by the recent storm. If council sees fit to make the latter appropriation it will do so under the emergency clause.

Street Commissioner Dickey yesterday made an inspection of the city and reported the conditions to the board last evening. The commissioner was of the opinion that it would be necessary to have between \$2,000 and \$3,000 to do the work. The board has no money and it will be compelled to look to council for the amount. The streets and other damaged spots must be repaired and the board anticipates no trouble in getting the appropriation. The sections of the city needing repair the worst are in the East End and West End. While the commissioner placed the figure of loss, he really had nothing to base the estimate on and it is probable that several more thousands will be necessary.

Report was made to the members that the condition of Avondale street and Calcutta road, together with a number of others, is alarming as the result of gross neglect on the part of a well known plumber. It is alleged that he tore up the thoroughfares about 60 days ago and did some plumbing work and then neglected to properly fill the holes. When the dashing rain plied its way down the hills the water furrowed long gutters where the bricks were loosened and now somebody must stand for the repair of the damaged places.

The plumber alleged to be responsible for the damage was before the board and stated that he left the streets untamped because he thought it would be better to delay the work until after the freezing weather desisted. There was much wrangling over the matter, and it was finally agreed

TRENTON NEWS LETTER.

Trenton, N. J., March 5.—(Special.)—A magnificent 128-piece dinner set of the famous Lambertson banquet china, manufactured by the Maddock Pottery company, of this city, was presented to William Ross, of Philadelphia, recorder of La La Temple, Mystic Shrine, A. A. O. N. M. S., at the annual banquet of the Trenton society of Shriners held in the hotel Sterling Thursday evening. The presentation was the chief feature of the banquet, which was the biggest Masonic event in this city this season. The china was splendidly decorated in gold and was made after the latest shape of the Maddock works, which is proving so popular since its introduction a short time ago.

Police Commissioner Harry S. Maddock, vice president of the Maddock company, and also vice president of the Trenton Society of Shriners, was a prime mover in the event. The presentation speech was made by David H. Lukens, of this city, a thirty-third degree Mason, and Recorder Ross responded suitably.

Covers were laid for 200 and the list of guests included prominent Masons from this city, Philadelphia and other nearby points.

The Trenton Shriners all hold membership in La La Temple and the china was presented as a token of the esteem in which the local Shriners hold the recorder. Winkler's full second regiment orchestra furnished the music for the function.

Another creation of the Maddock Pottery company of extraordinary beauty and artistic merit was a large punch bowl made for the Trenton Aerie No. 100, Fraternal Order of Eagles, which the Aerie took to Camden a few days ago and presented to Camden Aerie No. 65.

It was on exhibition here several days before it was taken to Camden and qualified judges pronounced it one of the finest specimens of ceramic art ever manufactured in this city. It was of the best grade of porcelain made by the Maddocks and was decorated on the exterior with bands of dull gold. The decoration, though simple, was extremely rich, the color of the exterior being a delicate lavender effect. The interior was embellished with beautiful sprays of flowers.

The Cook Pottery company has signed a remonstrance against the construction by the city of a large sewer which will pass in the rear of the Etruria works of this company. The sewer is also being opposed by a large number of individual taxpayers. The sewer has quite a history in that it is being proposed primarily to benefit the city alms house, and that this is the second effort to have it built.

It was first proposed to common council two months ago by the Republican majority, but was killed by the efforts of the Democrats. Now it is up for adoption again, but is meeting with opposition. It passes along the property of the Mercer pottery and the Trenton Potteries company, but these have not declared themselves on the proposition.

J. Rainey and W. Floel, two well known operatives at the Delaware pottery, rolled a bowling match for a purse of \$16 on the Hughes slate at

leys Thursday evening. Much interest centered in the event and over 100 potters witnessed the contest. Four games were bowled and Rainey won out by the aggregate score of 521 to 477.

As was expected here, the failure of the American Lamp & Brass company, of this city, has led to the appointment of a receiver for the Clark Brothers Lamp & Glass company, of Elwood City, Pa., with which the Trenton concern was closely identified. When the Clarks of this city took hold of the Elwood City factory a number of workmen went from this city to that place, and several of them have returned already. They claim they were not treated right by the firm in that they were not paid for the last two weeks' work. They say they were kept at work, though the company knew that financial disaster was impending. It is said that being thus left in the lurch several Trenton workmen will have a hard time to get back to this city.

LESS DAMAGE.

There was much less damage at the Thompson pottery from the high water than in January. The water, which crept over the bank toward the west end of the plant, found its way into the biscuit kiln sheds, but owing to the hard work that had been done, there was nothing for it to damage. The National and Harker's escaped a repetition of the experience of last January, but at the Colonial the bank is lower and the water came over with a strong current. It is thought that by Monday all effects of the flood will have vanished.

LOSS OF TIME.

Operatives at the East End plants who live down town or in Wellsville were compelled to loaf several days this week on account of weather and other conditions. Street car traffic was interfered with on account of the landslides and high water and the operatives found it impossible to reach the plants. Work will be resumed in full Monday.

POTTERY NOTES.

The Sebring potteries were surrounded with water during the recent flood and some damage resulted.

Employees of the Lisbon and New Cumberland plants are taking withdrawal cards from the local unions at those towns through Secretary Menge, of the Brotherhood. The Lisbon plant does not now make general ware and the other plant burned.

PEACE IS LIKELY.

Bituminous Operators Recede From Their Recent Demands.

Indianapolis, March 5.—There are indications that considerable has been accomplished by the miners and operators in sifting demands down to a point where something definite can be determined. The sub scale committee has submitted what they said was their ultimatum cutting their demand in half and asking for a two year scale at one-half of the 12½ per cent advance in wages given last year. This would make a reduction of 5 cents a ton from the present scale and a decrease in other labor of about 6 per cent. There will be a meeting of the full scale committee later and following that it is expected a meeting of the miners' committee will be called. It is believed the offer of the operators will be accepted.

President Mitchell and F. L. Robbins said that a general joint session would be held today to receive the scale committee's report. If the terms offered by the operators are accepted or but little changed a scale will be signed today.

FUEL SUPPLY FAILED.

Break in Gas Mains Causes Much Suffering in Ohio.

Cleveland, March 5.—With the temperature only a few degrees above the zero mark, thousands of people, dependent upon natural gas for fuel in their homes here, suffered from the intense cold because of the washing away of the big mains of the East Ohio gas company leading from this city to the West Virginia gas field. The supply of natural gas failed owing to destructive floods and a big landslide near Sandville, Ohio, where the big pipes were broken and carried away. Manufacturing plants in which gas is used have closed down until the mains are repaired. Similar conditions prevail at Akron and other towns supplied with fuel from the same source.

WELL KNOWN PASTOR DEAD.

The Rev. George N. Johnston Expires After an Operation.

Pittsburg, March 5.—Rev. George N. Johnston, a Presbyterian clergyman of Shields, Pa., is dead here as the result of an operation aged 69.

The deceased preached in New Lisbon and Steubenville presbyteries in Ohio during the sixties. He was a graduate of Washington and Jefferson college and the Western Theological seminary of Allegheny.

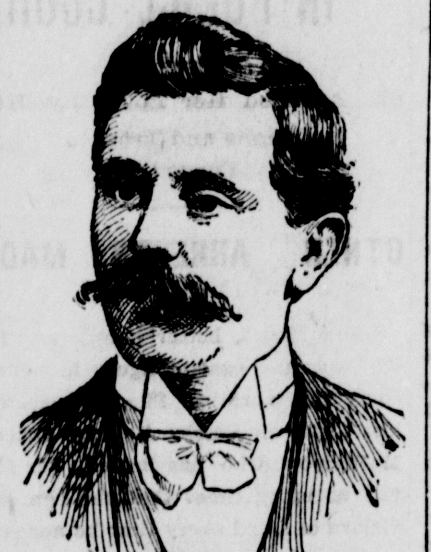

MY FOOD DOES ME NO GOOD

Oh, If I Could Only Eat Without After Regrets.

WHY ARE THESE QUESTIONS ASKED BY SO MANY PEOPLE?

A Piece of News For Those Who Have Weak Stomachs.

The stomach, liver and bowels cause more trouble than any other part of the body. There are thousands of persons whose food don't do them the good it should. They have had taste in the mouth, coated tongue, constipation, gas in stomach, fullness or distress after meals, bloating and belching of wind. They often have headache, are weak and nervous, have sallow complexions and can't sleep. Mr. C. S. Jones, corner Sixth street and Ninth avenue, Roanoke, Va., says:

"I feel it my duty to praise Dr. Greene's Nervura blood and nerve remedy for the good it has done me. I had been suffering with indigestion for ten years and had used every remedy that I could hear of for it, but nothing did me any good. I got so I could not sleep at night for the awful pains all over me. My stomach was swollen and so sore that I could hardly stand it, and I thought I would smother to death. I had a cough that was very bad. I had almost given up my case as one that could never be cured.

"But the Blessed Lord led me to a good medicine, and I have taken several bottles of Dr. Greene's Nervura blood and nerve remedy and can recommend it higher than all other medicines. Now I feel as if new life had come back to me, and I can sleep soundly all night, and enjoy myself everywhere I go. I can do work that I never have done before. I am a car builder for the railroad, and as I travel along the line if I can do anything in Dr. Greene's behalf I will do it. My advice to all will be to use this grand medicine. Dr. Greene's Nervura blood and nerve remedy."

You who have suffered so long and tried so many remedies, just try a bottle of Dr. Greene's Nervura blood and nerve remedy and you will get well. It always cures. Doctors recommend it because it is a great physician's discovery and because it makes people well. Dr. Greene is the most successful specialist in curing nervous and chronic diseases. His office is at 101 Fifth avenue, New York city, where he can be consulted free, personally or by letter.

TRENTON NEWS LETTER.

Trenton, N. J., March 5.—(Special.)—A magnificent 128-piece dinner set of the famous Lamberton banquet china, manufactured by the Maddock Pottery company, of this city, was presented to William Ross, of Philadelphia, recorder of La La Temple, Mystic Shrine, A. A. O. N. M. S., at the annual banquet of the Trenton society of Shriners held in the hotel Sterling Thursday evening. The presentation was the chief feature of the banquet, which was the biggest Masonic

ACT QUICKLY

Delay Has Been Dangerous in East Liverpool.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. Mrs. Howard Orr, of 220 Thompson Hill, says: "My sister, Mrs. Borlan, while visiting us, recommended Doan's Kidney Pills so highly that I was induced to try them. I had severe attacks of kidney complaint. Sometimes I was so bad I could not get up. Many times my neighbors came and found me lying on the lounge suffering when I intended doing a big day's work. I was so miserable I could do nothing. After my sister told me of the pills I made up my mind to try them, and got a box at the W. & W. Pharmacy. They did just what they claimed they would do, cured me sound and well in a few days. My little girl was feeling poorly and had a sallow complexion for some time. I gave her a few doses and after their use she felt splendidly."

For sale by all dealers. Price, 50 cents. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no other.

For sale by W. & W. Pharmacy.

leys Thursday evening. Much interest centered in the event and over 100 potters witnessed the contest. Four games were bowled and Rainey won out by the aggregate score of 521 to 477.

As was expected here, the failure of the American Lamp & Brass company, of this city, has led to the appointment of a receiver for the Clark Brothers Lamp & Glass company, of Elwood City, Pa., with which the Trenton concern was closely identified. When the Clarks of this city took hold of the Elwood City factory a number of workmen went from this city to that place, and several of them have returned already. They claim they were not treated right by the firm in that they were not paid for the last two weeks' work. They say they were kept at work, though the company knew that financial disaster was impending. It is said that being thus left in the lurch several Trenton workmen will have a hard time to get back to this city.

Covers were laid for 200 and the list of guests included prominent Masons from this city, Philadelphia and other nearby points.

The Trenton Shriners all hold membership in La La Temple and the china was presented as a token of the esteem in which the local Shriners hold the recorder. Winkler's full second regiment orchestra furnished the music for the function.

Another creation of the Maddock Pottery company of extraordinary beauty and artistic merit was a large punch bowl made for the Trenton Aerie No. 100, Fraternal Order of Eagles, which the Aerie took to Camden a few days ago and presented to Camden Aerie No. 65.

It was on exhibition here several days before it was taken to Camden and qualified judges pronounced it one of the finest specimens of ceramic art ever manufactured in this city. It was of the best grade of porcelain made by the Maddocks and was decorated on the exterior with bands of dull gold. The decoration, though simple, was extremely rich, the color of the exterior being a delicate lavender effect. The interior was embellished with beautiful sprays of flowers.

The Cook Pottery company has signed a remonstrance against the construction by the city of a large sewer which will pass in the rear of the Etruria works of this company. The sewer is also being opposed by a large number of individual taxpayers. The sewer has quite a history in that it is being proposed primarily to benefit the city alms house, and that this is the second effort to have it built.

It was first proposed to common council two months ago by the Republican majority, but was killed by the efforts of the Democrats. Now it is up for adoption again, but is meeting with opposition. It passes along the property of the Mercer pottery and the Trenton Potteries company, but these have not declared themselves on the proposition.

J. Rainey and W. Floel, two well known operatives at the Delaware pottery, rolled a bowling match for a purse of \$16 on the Hughes slate al-

LESS DAMAGE.

There was much less damage at the Thompson pottery from the high water than in January. The water, which crept over the bank toward the west end of the plant, found its way into the biscuit kiln sheds, but owing to the hard work that had been done, there was nothing for it to damage. The National and Harker's escaped a repetition of the experience of last January, but at the Colonial the bank is lower and the water came over with a strong current. It is thought that by Monday all effects of the flood will have vanished.

LOSS OF TIME.

Operatives at the East End plants who live down town or in Wellsville were compelled to loaf several days this week on account of weather and other conditions. Street car traffic was interfered with on account of the landslides and high water and the operatives found it impossible to reach the plants. Work will be resumed in full Monday.

POTTERY NOTES.

The Sebring potteries were surrounded with water during the recent flood and some damage resulted.

Employees of the Lisbon and New Cumberland plants are taking withdrawal cards from the local unions at those towns through Secretary Menge, of the Brotherhood. The Lisbon plant does not now make general ware and the other plant burned.

PEACE IS LIKELY.

Bituminous Operators Recede From Their Recent Demands.

Indianapolis, March 5.—There are indications that considerable peace has been accomplished by the miners and operators in sifting demands down to a point where something definite can be determined. The sub scale committee has submitted what they said was their ultimatum cutting their demand in half and asking for a two year scale at one-half of the 12½ per cent advance in wages given last year. This would make a reduction of 5 cents a ton from the present scale and a decrease in other labor of about 6 percent. There will be a meeting of the full scale committee later and following that it is expected a meeting of the miners' committee will be called. It is believed the offer of the operators will be accepted.

President Mitchell and F. L. Robbins said that a general joint session would be held today to receive the scale committee's report. If the terms offered by the operators are accepted or but little changed a scale will be signed today.

FUEL SUPPLY FAILED.

Break in Gas Mains Causes Much Suffering in Ohio.

Cleveland, March 5.—With the temperature only a few degrees above the zero mark, thousands of people, dependent upon natural gas for fuel in their homes here, suffered from the intense cold because of the washing away of the big mains of the East Ohio gas company leading from this city to the West Virginia gas field.

The supply of natural gas failed owing to destructive floods and a big landslide near Sandville, Ohio, where the big pipes were broken and carried away. Manufacturing plants in which gas is used have closed down until the mains are repaired. Similar conditions prevail at Akron and other towns supplied with fuel from the same source.

WELL KNOWN PASTOR DEAD.

The Rev. George N. Johnston Expires After an Operation.

Pittsburg, March 5.—Rev. George N. Johnston, a Presbyterian clergyman of Shields, Pa., is dead here as the result of an operation aged 69. The deceased preached in New Lisbon and Steubenville presbyteries in Ohio during the sixties. He was a graduate of Washington and Jefferson college and the Western Theological seminary of Allegheny.

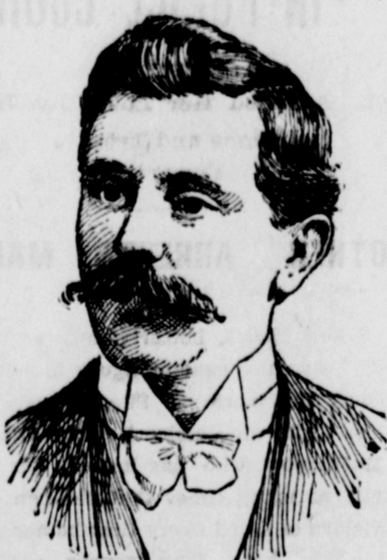

MY FOOD DOES ME NO GOOD

Oh, If I Could Only Eat Without After Regrets.

WHY ARE THESE QUESTIONS ASKED BY SO MANY PEOPLE?

A Piece of News For Those Who Have Weak Stomachs.

The stomach, liver and bowels cause more trouble than any other part of the body. There are thousands of persons whose food don't do them the good it should. They have had taste in the mouth, coated tongue, constipation, gas in stomach, fullness or distress after meals, bloating and belching of wind. They often have headache, are weak and nervous, have sallow complexions and can't sleep. Mr. C. S. Jones, corner Sixth street and Ninth avenue, Roanoke, Va., says:

"I feel it my duty to praise Dr. Greene's Nervura blood and nerve remedy for the good it has done me. I had been suffering with indigestion for ten years and had used every remedy that I could hear of for it, but nothing did me any good. I got so I could not sleep at night for the awful pains all over me. My stomach was swollen and so sore that I could hardly stand it, and I thought I would smother to death. I had a cough that was very bad. I had almost given up my case as one that could never be cured."

"But the Blessed Lord led me to a good medicine, and I have taken several bottles of Dr. Greene's Nervura blood and nerve remedy and can recommend it higher than all other medicines. Now I feel as if new life had come back to me, and I can sleep soundly all night, and enjoy myself everywhere I go. I can do work that I never have done before. I am a car builder for the railroad, and as I travel along the line if I can do anything in Dr. Greene's behalf I will do it. My advice to all will be use this grand medicine. Dr. Greene's Nervura blood and nerve remedy."

You who have suffered so long and tried so many remedies, just try a bottle of Dr. Greene's Nervura blood and nerve remedy and you will get well. It always cures. Doctors recommend it because it is a great physician's discovery and because it makes people well. Dr. Greene is the most successful specialist in curing nervous and chronic diseases. His office is at 101 Fifth avenue, New York city, where he can be consulted free, personally or by letter.

"DO IT TODAY."

The time-worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over 35 years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c.

At all druggists.

NEW SCHOOL CODE FOR SMALL BOARD

Committee Will Recommend That It Be Elected at Large.

SUPERINTENDENT'S POWER

Considerably Increased By the Measure—Which of Four Bills Will Be Used As a Basis Has Not Yet Been Determined.

From a Staff Correspondent.

Columbus, March 5.—The house committee on common schools will report a new school code bill providing for a small board, elected at large and giving the superintendent large powers.

When the report will be made, just what the details of the bill reported will be and which of the four pending bills will be used as a basis, has not been determined.

If the ward plan carries it will be after the house has passed the small board bill and the matter has gone to conference. The friends of the small board plan declare they will hold the legislature here until July before they will consent to the ward board plan.

When the house committee was appointed the majority of its members favored the ward board plan. A large majority now favor the small board plan and there is scarcely a possibility of the Cincinnati or ward plan being supported by more than two or three of the members of the committee when the matter comes up for settlement. There will be a big fight in the house and two reports will be offered, but the chances are all in favor of the passage of the small board plan.

plan by the house, while the senate will favor the ward plan, and a conference committee will be called upon to settle the squabble.

Clerk James Williams and members Fred J. Beer and John L. Davies, of the Columbus board of education, addressed the committee during the day in favor of the ward plan, declaring that it worked well in this city and the people were not anxious for a change.

The house committee on temperance having in charge the Brannock bill has decided to grant the request of the hotel men's association for a hearing next Wednesday evening, although the committee had previously decided to report on the bill at once. This will postpone the final vote on the bill another week.

The Crawford bill has been given another setback in the house. It was up for passage in the house and there were enough votes against it to insure its defeat with proper ceremonies. The author of the bill became uneasy and had the famous formula bill postponed until next Tuesday.

Another bill which appears to have been conceived in innocence rather than malice and introduced by Mr. Humphrey, of Hardin, providing for the publication of reports of county officers in pamphlet instead of in the newspapers, has been indefinitely postponed by the committee on agriculture.

The finance committee left on another tour of inspection of state institutions Thursday afternoon and will return Monday. The committee is making good progress this year and if other matters are out of the way the finance committee will not retard adjournment after April. However, it looks now as though the school matter and the general salary bill would hold the legislature here at least another month.

COURT ORDERS IN VARIOUS CASES

LOCAL SUITS DISMISSED OR POSTPONED.

Leave to File Amended Petitions Is Given in Several Instances. Other Orders.

Lisbon, March 5.—(Special.)—The case of George Wymer, guardian of Mary A. Wernet, an imbecile, against William A. In the divorce case of Roberta A. Holtz versus Kilson S. Holtz, leave is given the plaintiff to make Kate J. Riddle a party defendant, with leave to file an amended petition by March 14.

In the case of Frederick T. Adams versus Matthew J. and Jane Child et al, in which the plaintiff brought suit to quiet title to a tract in Lisbon, the court has decreed that the plaintiff has a clear title, but there is due from the plaintiff to James B. and Annie C. Callahan, defendants, who filed an answer and cross petition, \$230 on a promissory note executed in favor of M. J. Child in 1891 and secured by a mortgage on the premises.

In the case of Joseph Thomas versus William Haessly et al, the defendants having filed an answer confessing judgment for \$204.31, court has rendered judgment in the amount for the plaintiff.

The case of Margaret Mountz versus Alice Horsefall has been settled.

In the case of James D. West ver-

sus Alex G. Chaffin, a demurrer to the petition has been sustained by consent of the plaintiff, who has leave to file an amended petition instant.

In the case of T. F. Kopp versus Charles McMillan, judgment for the plaintiff for \$128.70 has been rendered by default.

Judgment by default for \$59.64 and costs has been rendered for the plaintiff in the case of Trotter Bros. & Co. vs. Paul Metzger.

In the case of John N. Miller versus the United Power company the plaintiff has leave to file an amended petition by April 1 to include new parties defendant.

EAST END CAUCUS TO SELECT PRECINCT COMMITTEEMEN

The Republican Voters of the Second Precinct Will Meet Tonight Pursuant to Call.

Notices have been posted for a meeting of the Republican voters of the second precinct of the First ward to be held at 8 o'clock tonight at the office of the Federal Building & Loan company. The meeting is for the purpose of selecting three committeemen for the precinct to serve as city and township committeemen. The call is signed by W. C. Supplee, William Kinney and S. R. Dixon, the present committeemen.

As little or no interest is being shown in political meetings it is not likely that the attendance will be large, as the selection of the committeemen is the only business to be transacted. It was stated this morning that neither of the three committeemen above named will accept the post again.

Although entries for nominations close at 8 o'clock tonight there are no new candidates announced. It was rumored this morning, however, that several candidates for councilmanic honors would enter the race by announcing just before the hour the entries close.

JOHN BATES HAD NARROW ESCAPE

Got Beyond His Depth in Sandy Bottom Flood And Had to Swim Out.

No person had a more harrowing experience during the deluge early Thursday morning than John Bates, of Sandy Bottom. Not realizing the extent of the flood Bates started from his home before daylight and started to wade through the water to Pennsylvania avenue. He lives several hundred feet from that thoroughfare and he had not proceeded far before he realized that he was in great danger. There are several deep gullies which were filled by a raging torrent of water.

Finally Bates got beyond his depth and was carried away with the current. He kept himself up by swimming and after a desperate battle with the flood succeeded in reaching dry ground. He went to the Laughlin pottery, where he is employed and worked all day.

SCHOOL CLOSED

Bad Boys at Dixonville Have Caused Teacher Temporary Suspension of the School.

The Dixonville school was closed yesterday afternoon by the teacher, Miss Moore, who found that she could not control a number of boys, who for the past two weeks have been indulging in all sorts of misdemeanors. These boys are about 14 years old and the neighborhood is very indignant over their actions. It has been suggested that a male teacher be employed.

As yet nothing has been done in the matter but the trustees will not allow the school to remain closed.

Returned to His Home.

Rev. W. L. McClure, of Freeport, who has been assisting in the evangelistic meetings at the Second Presbyterian church, left for his home this morning. Prof Laughlin, who has been conducting the singing, will remain during next week and Rev. Mr. Worrell will come Monday to assist in the meetings next week.

Mary Ade Better.

Little Mary Ade, who has been so critically ill during the past month with typhoid fever, is much better and will recover. The nurse who has been constantly at the bedside was discharged yesterday.

Repairing Damaged Bridges.

Low Howard, of the East End street department, has started on the work of repairing the damaged streets and bridges. The bridges across First avenue that were so badly damaged will be given attention first.

Initiated Candidates.

CAUGHT BY THE GRIP. RELEASED BY PE-RU-NA.

Congressman Geo. H. White's Case. A Noted Sculptress Cured.

The world of medicine recognizes Grip as epidemic catarrh. -- Medical Talk.

LA GRIPPE is epidemic catarrh. It clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Pe-ru-na for Grip.

Mrs. Theophile Schmitt, wife of the Ex-Secretary of the German Consulate, writes the following letter from 3417 Wabash avenue, Chicago, Ill.:

"I suffered this winter with a severe attack of la grippe. After using three bottles of Pe-ru-na I found the grip had disappeared."—Mrs. T. Schmitt.

Mrs. Celeste Covell writes from 219 N. avenue, Aurora, Ill.:

"Only those who have suffered with la grippe and been cured can appreciate how grateful I feel that such a splendid medicine as Pe-ru-na has been placed at the door of every suffering person."—Mrs. C. Covell.

Noted Sculptress Cured of Grip.

Mrs. M. C. Cooper, of the Royal Academy of Arts, of London, England, now residing in Washington, D. C., is one of the greatest living sculptors and painters of the world. She says:

"I take pleasure in recommending Pe-ru-na for catarrh and la grippe. I have suffered for months, and after the use of one bottle of Pe-ru-na I am entirely well."—Mrs. M. C. Cooper.

D. L. Wallace, a charter member of the International Barber's Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over. One of my customers who was greatly helped by Pe-ru-na advised me to try it, and I procured a bottle the same day. Now my head is clear, my nerves are steady, I enjoy food and rest well. Pe-ru-na has been worth a dollar a dose to me."—D. L. Wallace.

Lieutenant Clarice Hunt, of the Salt Lake City Barracks of the Salvation Army, writes from Ogden, Utah:

"Two months ago I was suffering with so severe a cold that I could hardly speak. Our captain advised me to try Pe-ru-na and procured a bottle for me, and truly it worked wonders. Within two weeks I was entirely well."—Clarice Hunt.

Congressman White's Letter. Tarboro, N. C.

Gentlemen:—I am more than satisfied with Pe-ru-na and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."—George H. White, Member of Congress.

Mrs. T. W. Collins, Treasurer Independent Order of Good Templars, of Everett, Wash., writes:

"After having a severe attack of la grippe I continued in a feeble condition even after the doctors called me cured. My blood seemed poisoned. Pe-ru-na cured me."—Mrs. T. W. Collins.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

HARD'S The Big Store
Wholesale and RetailNEW SCHOOL CODE
FOR SMALL BOARDCommittee Will Recommend That
It Be Elected at
Large.

SUPERINTENDENT'S POWER

Considerably Increased By the Measure—Which of Four Bills Will Be
Used As a Basis Has Not Yet Been
Determined.

From a Staff Correspondent.

Columbus, March 5.—The house committee on common schools will report a new school code bill providing for a small board, elected at large and giving the superintendent large powers.

When the report will be made, just what the details of the bill reported will be and which of the four pending bills will be used as a basis, has not been determined.

If the ward plan carries it will be after the house has passed the small board bill and the matter has gone to conference. The friends of the small board plan declare they will hold the legislature here until July before they will consent to the ward board plan.

When the house committee was appointed the majority of its members favored the ward board plan. A large majority now favor the small board plan and there is scarcely a possibility of the Cincinnati ward plan being supported by more than two or three of the members of the committee when the matter comes up for settlement. There will be a big fight in the house and two reports will be offered, but the chances are all in favor of the passage of the small board

plan by the house, while the senate will favor the ward plan, and a conference committee will be called upon to settle the squabble.

Clerk James Williams and members Fred J. Beer and John L. Davies, of the Columbus board of education, addressed the committee during the day in favor of the ward plan, declaring that it worked well in this city and the people were not anxious for a change.

The house committee on temperance having in charge the Brannock bill has decided to grant the request of the hotel men's association for a hearing next Wednesday evening, although the committee had previously decided to report on the bill at once. This will postpone the final vote on the bill another week.

The Crawford bill has been given another backset in the house. It was up for passage in the house and there were enough votes against it to insure its interment with proper ceremonies when the author of the bill became uneasy and had the famous formula bill postponed until next Tuesday.

Another bill which appears to have been conceived in innocence rather than malice and introduced by Mr. Pumphrey, of Hardin, providing for the publication of reports of county officers in pamphlet instead of in the newspapers, has been indefinitely postponed by the committee on agriculture.

The finance committee left on another tour of inspection of state institutions Thursday afternoon and will return Monday. The committee is making good progress this year and if other matters are out of the way the finance committee will not retard adjournment after April. However, it looks now as though the school matter and the general salary bill would hold the legislature here at least another month.

Other Orders.

Lisbon, March 5.—(Special).—The case of George Wymer, guardian of Mary A. Wernet, an imbecile, against William A. Wernet, has been dismissed at the cost of the plaintiff, who has served notice of an appeal to the circuit court. A similar entry has been made in a case in which Joseph Wernet was defendant.

It has been decreed by the court that the Cherry Valley Iron company's addition to Leetonia, embracing lots 1062 to 1118, inclusive, may be vacated in accordance with the company's motion.

In the case of George Wymer, as guardian, versus Joseph Wernet et al, leave is given to file an amended petition instant.

The case of Joseph R. Wright versus J. O. Johnson et al has been continued by consent.

In the case of Daniel A. Forbes versus the United Power company leave is given the plaintiff to reply instant.

In the case of Anson S. Springer et al versus Emma C. Williamson leave is given the defendant to answer by March 12.

In the divorce case of Roberta A. Holt versus Kilson S. Holt, leave is given the plaintiff to make Kate J. Riddle a party defendant, with leave to file an amended petition by March 14.

In the case of Frederick T. Adams versus Matthew J. and Jane Child et al, in which the plaintiff brought suit to quiet title to a tract in Lisbon, the court has decreed that the plaintiff has a clear title, but there is due from the plaintiff to James B. and Annie C. Callahan, defendants, who filed an answer and cross petition, \$230 on a promissory note executed in favor of M. J. Child in 1891 and secured by a mortgage on the premises.

In the case of Joseph Thomas versus William Haessly et al, the defendants having filed an answer confessing judgment for \$204.31, court has rendered judgment in the amount for the plaintiff.

The care of Margaret Mounitz versus Alice Horsfall has been settled.

In the case of James D. West ver-

sus Alex G. Chafin, a demurrer to the petition has been sustained by consent of the plaintiff, who has leave to file an amended petition instant.

In the case of T. F. Kopp versus Charles McMillan, judgment for the plaintiff for \$128.70 has been rendered by default.

Judgment by default for \$59.64 and costs has been rendered for the plaintiff in the case of Trotter Bros. & Co. vs. Paul Metzger.

In the case of John N. Miller versus the United Power company the plaintiff has leave to file an amended petition by April 1 to include new parties defendant.

CAUGHT BY THE GRIP.
RELEASED BY PE-RU-NA.Congressman Geo. H. White's Case.
A Noted Sculptress Cured.

LA GRIPPE is epidemic catarrh. It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip." Without intending to do so a new word has been coined that exactly describes the case. As if some hideous giant with awful garb had

clutched us in its fatal clasp. Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Pe-ru-na for Grip.

Mrs. Theophile Schmitt, wife of the Ex-Secretary of the German Consulate, writes the following letter from 3417 Wabash avenue, Chicago, Ill.:

"I suffered this winter with a severe attack of la grippe. After using three bottles of Pe-ru-na I found the grip had disappeared."—Mrs. T. Schmitt.

"I take pleasure in recommending Pe-ru-na for catarrh and la grippe. I have suffered for months, and after the use of one bottle of Pe-ru-na I am entirely well."—Mrs. M. C. Cooper.

The proposed constitutional amendment, if adopted, as it probably will be if it is ever submitted to the voters of the state, disposes of the only substantial objection to the proposition to abolish spring elections. According to its terms, municipal elections will then take place biennially in the odd numbered years. State and county elections will take place every two years in the even numbered years, at the same time as elections for congressmen and presidential electors. There would be but one election each year, and people would have time to consider carefully the issues involved. A protest is likely to be raised by those who thrive by politics and make their living as political workers; but these are not the people whose interests should be considered in making the change. With the proposed change local and general elections would be as separate and distinct as they are at present, and half the time that is devoted to campaigning work each year could be saved for some more gainful and useful occupation. The tendency of this age is for business people to neglect politics. They would have less excuse for doing so if there were fewer elections. Many states, Ohio included, that once deemed it best to hold elections for state officers on a date earlier than that of the November election have abolished the extra election and find that the interests of the people have not suffered, and that the number of voters who turn out at the polls is far greater than under the old system. The proposed Ohio plan has much to commend it and it will be surprising if it does not meet with popular favor, if once put in force.

If the morals and sentiments of the Mormon church are accurately represented by the president of that body—and certainly it is not unfair to assume that they are—that church believes that neither polygamy nor defiance of the laws of the state and na-

tion is a crime. Smith's confession will result in more vigorous denunciation than ever against Mormonism and its principles, and if a strenuous crusade against the evil tenets of that doctrine does not follow it will be surprising. The "manifesto" of the church against polygamy did not abolish it, as the head of the church makes it evident, and was evidently merely a cunning device to allay suspicion and get Utah into the sisterhood of states under false pretenses. Mormonism, as a religion, is something that neither state nor federal government can interfere with; the practice of polygamy, however, falls under the ban of all lands. If a people who abolished negro slavery a few years ago cannot wipe out that other twin relic of barbarism, polygamy, then their temper and disposition has been wholly misunderstood. As long as polygamy is practiced in this country, whether secretly or openly, it will be a standing reproach to the nation, and Christian men and women will not patiently tolerate its continuance.

It has been made pretty plain that tramps are unwelcome as the guests of the city. Now if we had a municipal stone pile for chance wanderers to work upon, the entire fraternity of hoboes would undoubtedly give the city a wide berth.

The Russians were not formerly given to boasting. Since they got into the fighting business, however, they are doing considerable conversational and typewriting stunts that would make a professional pugilist turn green with envy.

Thousands of cases of distress and hunger could be prevented by submitting the differences between the soft coal miners and operators to arbitration.

It is more polite as well as less dangerous to tell a man he talks like a Russian general than to be more explicit, if you doubt his word.

Lincoln, Neb., experienced a fall of 63 degrees in temperature in six hours. It is not recorded whether Bryan was talking at the time.

Senator Fairbanks is said to be willing to enter the vice presidential race. Roosevelt and Fairbanks would sound all right.

Wonder if those houses "drowned" at Irondale chanced to fall into that "empty tub, half filled with water?"

The Mormons are probably beginning to wish that they had never sent Smoot to the senate.

The proposed constitutional amendment, if adopted, as it probably will be if it is ever submitted to the voters of the state, disposes of the only substantial objection to the proposition to abolish spring elections. According to its terms, municipal elections will then take place biennially in the odd numbered years. State and county elections will take place every two years in the even numbered years, at the same time as elections for congressmen and presidential electors. There would be but one election each year, and people would have time to consider carefully the issues involved. A protest is likely to be raised by those who thrive by politics and make their living as political workers; but these are not the people whose interests should be considered in making the change. With the proposed change local and general elections would be as separate and distinct as they are at present, and half the time that is devoted to campaigning work each year could be saved for some more gainful and useful occupation. The tendency of this age is for business people to neglect politics. They would have less excuse for doing so if there were fewer elections. Many states, Ohio included, that once deemed it best to hold elections for state officers on a date earlier than that of the November election have abolished the extra election and find that the interests of the people have not suffered, and that the number of voters who turn out at the polls is far greater than under the old system. tion is a crime. Smith's confession will result in more vigorous denunciation than ever against Mormonism and its principles, and if a strenuous crusade against the evil tenets of that doctrine does not follow it will be surprising. The "manifesto" of the church against polygamy did not abolish it, as the head of the church makes it evident, and was evidently merely a cunning device to allay suspicion and get Utah into the sisterhood of states under false pretenses. Mormonism, as a religion, is something that neither state nor federal government can interfere with; the practice of polygamy, however, falls under the ban of all lands. If a people who abolished negro slavery a few years ago cannot wipe out that other twin relic of barbarism, polygamy, then their temper and disposition has been wholly misunderstood. As long as polygamy is practiced in this country, whether secretly or openly, it will be a standing reproach to the nation, and Christian men and women will not patiently tolerate its continuance.

It has been made pretty plain that tramps are unwelcome as the guests of the city. Now if we had a municipal stone pile for chance wanderers to work upon, the entire fraternity of hoboes would undoubtedly give the city a wide berth.

The Russians were not formerly given to boasting. Since they got into the fighting business, however, they are doing considerable conversational and typewriting stunts that would make a professional pugilist turn green with envy.

Every one knows that Royal Baking Powder is absolutely pure. Hence the housewife uses it with implicit confidence and without question, and she is justified in so doing.

But how few realize that Royal Baking Powder in its chief ingredient is a direct product of the healthful and delicious grape! This constituent of the grape, crystallized and ground to an impalpable powder, is the cream of tartar which forms the active principle of every pound of Royal Baking Powder.

Fruit properties are indispensable to the healthfulness of the body, and those of the grape as used in the "Royal" are the most valuable and healthful of all.

Hence it is that Royal Baking Powder produces food superlative both in flavor and wholesomeness.

CELERY is one of the most efficacious Nervines. It strengthens weak nerves and fortifies and invigorates the whole nervous system. Its action extends to the kidneys and gives relief in Rheumatism, Neuralgia and other painful ailments.

BEEF—in the form of extract—is nutritive, slightly stimulant and easily digested. With the other components it increases their tonic and reparative action and assists in the more rapid assimilation of the compound.

IRON—The great mineral tonic and indispensable constituent of the blood. Pyrophosphate of Iron (used in this remedy) is the form of iron most quickly appropriated by the system. It does not injure the teeth, increases the red corpuscles of the blood and gives greater strength and vitality to all the tissues of the body.

TEACHERS' GIFT TO SUPT. CORSON

Former Ohio School Commissioner Presented a Purse of \$1,000.

TESTIMONIAL OF ESTEEM

To a Popular Educator on the Eve of His Departure for Europe—How Local Pupils Are Succeeding With Their Work.

Hon. O. T. Corson, former school commissioner of Ohio, will sail for Europe today. The public school teachers of this state, as a gift of high esteem, presented to Supt. Corson a purse of \$1,000 and requested that it be used in a trip to the Holy Land.

It was during the recent service, as state school commissioner, that Mr. Corson's health became impaired and he is compelled to take a trip for recovery. State Superintendent Houck of Pennsylvania will accompany the party on the trip, which will extend over several months.

The local teachers are also interested in Supt. Corson's trip, since they contributed liberally to the purse.

The School Masters' club met yesterday and today in the city of Pittsburgh. At 1 o'clock today a very fine banquet was given in the Colonial hotel in honor of Hon. O. T. Corson and Supt. Houck.

During the week past the teachers have received their magazines and educational papers for the month of March. With the beginning of spring they are busy reading up in the educational magazines the suggestions for nature study, which is one of the real pleasures to the children of the grades during the months of March, April and May.

The magazines for the month are excellent in their suggestions, which will interest both teachers and pupils in the spring nature work. In primary grades, nature study talks on March muds, rains, the first spring flowers, leaf buds, bird life, including the robin and blue bird, teach the children to observe closely and may be used as a means of oral languages.

Nothing is more interesting to school children than to watch the growth of pussy willows, with the object before them in the school room. In one room the children have been making nature charts, while in another class they are gathering twigs to watch the leaf buds sprout. Whether or not some of the work in drawing, language papers, compositions and nature charts of the public school children of this city will be sent to the St. Louis exposition has not been decided. Some of this work which has been done this year shows the accurate work of pupils and careful instructions of teachers. Since educational work is to occupy a very prominent place at the exposition, it is probable that every state in the union will be represented.

WILFUL ABSENCE IS THE CHARGE

Patrick Quinn, of East Liverpool, Asks a Divorce from His Wife.

Lisbon, March 5.—(Special).—Patrick Quinn, of East Liverpool, asks the court for a divorce from Myrtle Quinn, in a petition filed here by his attorneys, Brookes & Thompson. The petition says the parties were married at Findlay in 1889 and have one child, Earl William Quinn, 13 years old.

Wilful absence is the ground on which divorce is asked.

tion includes colleges, universities, scientific, technical and engineering schools, and also professional schools and libraries and museums.

Special education in the fine arts will be one of the most instructive groups for five of the largest art schools in the country will occupy the space. There will also be schools giving instruction in music in all its departments.

Perhaps the most important modern displays will be collected in group 5, which is devoted to special education in agriculture. The farmer need no longer till the soil in a haphazard way. Farming today is a science. The numerous agricultural colleges and experimental stations throughout the country have already planned to make an elaborate collective exhibit, to demonstrate their methods of instruction and the advantages obtained in the scientific study of farming and forestry. For this purpose congress appropriated \$100,000. Some of the methods to be used in preparing exhibits will include a display of books on school laws, state reports, history of school systems, text books and original contributions by professors and students, and other school literature, as well as programs, rules and regulations and statistical charts, diagrams and tables. The equipment of educational institutions will be shown by illustrated drawings, photographs and models of buildings and their furnishings, with the play grounds. All apparatus specially illustrating a new method can be entered here.

Bound volumes of pupils' work arranged by years or grades, and illustrating fully the curriculum in literary, scientific, artistic and mechanical lines will be an important feature of the exhibit.

Education as a profession has made a steady advance in the estimation of the people, during the last two decades, and the little red brick school house has been duly appreciated in the organization of the great Universal Exposition of 1904.

All the fifth grades were given yesterday tests in arithmetic. The papers have not been graded as yet, but it is probable that the pupils did quite well in the examination.

The Sophomore and Junior classes of the high school yesterday presented Miss Florence Updegraff, the principal of the high school, with two handsome bouquets of cut flowers. It was quite a surprise to Miss Updegraff, but a gentle reminder that it was her birthday anniversary.

A FINE CARD PARTY

Mr. and Mrs. James S. Hilbert Pleasantly Entertained a Large Number of Friends.

Mr. and Mrs. James S. Hilbert entertained in an elaborate manner, over 50 of their friends last evening at their pleasant home on Thompson avenue. It was the second in a series of entertainments given by Mr. and Mrs. Hilbert, and was a most delightful euchre party. The Hilbert residence was prettily decorated in palms and ferns.

After Mr. and Mrs. Hilbert had received with cordial greetings their 56 guests, the evening's enjoyment began at cards and flinch. Little Helen Hilbert and Master William Bartlett aided the host and hostess and passed tally cards to the guests. They were dressed in costumes of purest white and executed their duties in a most admirable manner. The other aides were also in white.

After some time spent in sociability of host, hostess and guests, the entire party enjoyed a fine collation with a most superb menu, provided by a Pittsburg caterer.

The out-of-town guests who were present were Mrs. Reese, of Minneapolis, Miss Patterson, of Lisbon, and Mr. William C. Havener, of Cambridge, O.

Chautauqua Circle.

The Chautauqua circle met last evening at the home of Mrs. W. N. Bailey, on Market street, and had an especially interesting meeting. Mrs. Rayman spoke on "Social Evolutions in the United States." Her talk was followed by one on "Industry in the Racial Composition" by Mrs. C. T. Hard. "American Sculptors and Their Art" was the topic of a discussion led by Mrs. Eells.

A number of fine piano solos were rendered by Miss Lillian Bailey in a pleasing manner.

The next meeting of the Chautauqua circle will be at the home of Mrs. Eells in two more weeks. Miss Jackson and Mrs. Bailey will then speak on "Personal Recollections in New York City."

Mrs. Rayman will continue the subject of "Social Evolution" and Mrs. Hard will also continue her theme on "Racial Composition."

Dinner to Directors.

The ladies' auxiliary of the Y. M. C. A. gave an excellent three-course 6 o'clock dinner last evening to the board of directors of the Y. M. C. A. It is the purpose of the auxiliary to give the diners once every month to the board. The committee in charge last evening were Mrs. W. W. Hamilton and Mrs. H. H. Pollard. There will be four other of the auxiliary ladies in charge of the next 6 o'clock dinner.

Pleasant Euchre Party.

A pleasant euchre party was given last evening by Misses Tillie and Eva Foutts on their home on West Market street. The amusement of the evening was progressive euchre, at which the young people spent a most enjoyable time. The first prizes were won by Miss Anna Carson and George Viney and the consolations were given to Miss Edna Potts and Frank Hill.

An Enjoyable Evening.

Mrs. S. J. Cripps entertained her Sunday school class of the First M. E. church at her home on Jackson street last evening. The class consists of 19 boys, and the hostess had planned a most enjoyable evening for the boys. Flinch and pit were the most interesting games played. Some time was spent in listening to mandolin and guitar duets. At a seasonable hour refreshments were served.

Coming Entertainment.

Mrs. T. H. Tomkinson, of this city, professor of music, and pupil of the late Signor Niccolletti, M. B., will give a grand miscellaneous concert and sketch entitled "Prof. Alderberont and His Wonderful Seance" at Y. M. C. A. hall some time during the first of April. The entertainment will be given under the auspices of the ladies' auxiliary of the Y. M. C. A.

Every one knows that Royal Baking Powder is absolutely pure. Hence the housewife uses it with implicit confidence and without question, and she is justified in so doing.

But how few realize that Royal Baking Powder in its chief ingredient is a direct product of the healthful and delicious grape! This constituent of the grape, crystallized and ground to an impalpable powder, is the cream of tartar which forms the active principle of every pound of Royal Baking Powder.

Fruit properties are indispensable to the healthfulness of the body, and those of the grape as used in the "Royal" are the most valuable and healthful of all.

Hence it is that Royal Baking Powder produces food superlative both in flavor and wholesomeness.

TEACHERS' GIFT TO SUPT. CORSON

Former Ohio School Commissioner Presented a Purse of \$1,000.

TESTIMONIAL OF ESTEEM

To a Popular Educator on the Eve of His Departure for Europe—How Local Pupils Are Succeeding With Their Work.

Hon. O. T. Corson, former school commissioner of Ohio, will sail for Europe today. The public school teachers of this state, as a gift of high esteem, presented to Supt. Corson a purse of \$1,000 and requested that it be used in a trip to the Holy Land.

It was during the recent service, as state school commissioner, that Mr. Corson's health became impaired and he is compelled to take a trip for recovery. State Superintendent Houck of Pennsylvania will accompany the party on the trip, which will extend over several months.

The local teachers are also interested in Supt. Corson's trip, since they contributed liberally to the purse.

The School Masters' club met yesterday and today in the city of Pittsburgh. At 1 o'clock today a very fine banquet was given in the Colonial hotel in honor of Hon. O. T. Corson and Supt. Houck.

During the week past the teachers have received their magazines and educational papers for the month of March. With the beginning of spring they are busy reading up in the educational magazines the suggestions for nature study, which is one of the real pleasures to the children of the grades during the months of March, April and May.

The magazines for the month are excellent in their suggestions, which will interest both teachers and pupils in the spring nature work. In primary grades, nature study talks on March muds, rains, the first spring flowers, leaf buds, bird life, including the robin and blue bird, teach the children to observe closely and may be used as a means of oral languages.

Nothing is more interesting to school children than to watch the growth of pussy willows, with the object before them in the school room. In one room the children have been making nature charts, while in another class they are gathering twigs to watch the leaf buds sprout. Whether or not some of the work in drawing, language papers, compositions and nature charts of the public school children of this city will be sent to the St. Louis exposition has not been decided. Some of this work which has been done this year shows the accurate work of pupils and careful instructions of teachers. Since educational work is to occupy a very prominent place at the exposition, it is probable that every state in the union will be represented.

SOUND DRUBBING

The Champions Made It Fifteen
Straight By Beating Freedom
for the Third Time.

ONLY TWO FIELD GOALS

Freedom Narrowly Escaped a White-
wash in the First Half and Best
They Could Do Was One Field Goal
in Each Round.

The East Liverpool basketball ball five made it 15 straight last night by defeating Freedom in a one-sided, but intensely interesting game. The local five is showing better form as the season progresses and they played so fast last night that the visitors could not stand the pace.

The first half under national rules was one of the prettiest exhibitions of the season on the part of Captain Chadwick and his men. The half started in a rush and for the first five minutes it looked as though Freedom would prove a dangerous adversary but the goals began to pile up while Freedom failed to score. Never has the local team played a better offensive game and the visitors' chances for shooting were few and far between. As the minutes passed and they failed to make a goal it looked as though the locals would establish a new record for the season by scoring a white-wash, but unfortunately Chadwick slipped and fell while pursuing Bane, who was dribbling the ball down on the floor, and that player made the first and only field goal in the half. One foul throw gave the visitors a total of 3 for the half.

Although Rigby scored the greatest number of goals it would be difficult to pick out one player that excelled. There was not a pause in the play and the interference was so perfect that Freedom failed to employ anything that resembled team work. Watkin played Leach, the 200 pound forward of the Geneva five, and did it so well that the big fellow not only failed to score, but bested at every point. Chadwick has not played a better game this season and he deserves a full measure of credit in keeping the ball away from the visitors. Rigby came near equalling his great goal record, made in the Alliance game, but he missed several shots. Ten in the first half and six in the second half was his record. Bloor and Allison were up to Chadwick's standard at offensive play and both made some pretty goal throws. Powell, who relieved Allison in the second half, kept up the fierce pace and played Pearson to a standstill.

Pearson, who is quite a favorite here, is a clean player and he won additional friends among the crowd. His nice work was very highly complimented, but he was no match for Rigby at center and he was relieved by West. The game was clean throughout and the victory was easily landed

HEARTY OLD AGE

Blood Wine Gives Old Folks True Youthful Vigor.

Old folks who are chilly all the time, fretful, weak, discouraged and suffering from aching, rheumatic back and limbs, with heavy, faltering feet, can gain from Blood Wine youthful animation, cheerfulness and strength. Read the words

of Mrs. Howard Warren, 143 Main street, Concord, N. H.:

"I have used 'Blood Wine' myself and given it to my mother, now 90 years of age, and I have found it invaluable in cases of colds and coughs. It is a superior medicine for elderly people who are run down and nervous."

Here is a case of rheumatism, the scourge of old age, cured by Blood Wine. Mrs. H. E. Young, 34 Ferry street, Lynn, Mass., says:

"I am 84 years of age, and have suffered for years with rheumatism. I have never taken a medicine that seemed to do me any good until my son brought home a bottle of 'Blood Wine.' It helped my lameness and put new vigor and activity into my system. I have taken twelve bottles; would not be without it."

Has Cured Hundreds of "Incurable"
Cases After Five to Thirty
Physicians Failed.

When an experienced physician offers to give away his New Treatments for diseases of the heart, nerves, stomach, or dropsy, it is conclusive evidence that he has great faith in them. And when hundreds of prominent men and women freely testify to his unusual skill and the superiority of his New Special Treatments his liberality is certainly worthy of consideration.

That Dr. Franklin Miles is one of the world's most successful physicians is proven by thousands of wonderful cures of well known people. One patient cured after failure of eleven Grand Rapids physicians, one after being given up by 39 physicians, one after failure of 22 physicians, another after nine of the leading doctors in New York city, Philadelphia and Chicago failed.

The eminent Rev. W. Bell, D. D., of Dayton, Ohio, general secretary of foreign missions, writes editorially in the State Sunday School Union: "We desire to state that from personal acquaintance we know Dr. Miles to be a most skillful specialist, a man who has spared neither labor nor money to keep himself abreast of the great advancement of medical science."

Prof. J. S. Jewell, M. D., editor of Journal of Mental and Nervous Diseases, Chicago, said: "By all means publish your surprising results." Rev. J. W. Stokesbury, of Fairport, Mo., had head, heart, stomach troubles, and nervous prostration. Three physicians failed to help him. He writes: "I regard myself cured."

Rev. S. E. Warren, Armada, Mich., states: "I have had no symptoms of heart trouble since first taking the Special Treatment."

for the simple reason that the visitors were outclassed and outplayed.

Watkin took the ball to Freedom's goal at the start off and Freedom fouled, Chadwick missing the throw. Allison then made the first basket after a warm scrimmage in which all the players assisted. Liverpool then fouled and Leach failed on the throw. Rigby scored his first, a hard one from the corner. Freedom fouled again, but Rigby failed on the throw. Leach missed another throw after the locals fouled, but Chadwick made a foul shot a moment later. Rigby scored another goal from the field and Chadwick fed him for a third one. It was the prettiest playing under national rules seen this season. Watkin tried a long shot and missed, but Rigby caught the ball near the basket and dropped it through. 25 to 0. Chadwick fell in pursuing Bane and he saved his team a whitewash by making a goal. The half ended 33 to 3.

The second half was a repetition of the first, the locals scoring 26 points while the visitors made 4. The pace was so fast that the visitors were winded toward the last, although they played desperately to keep the score down.

The lineup and individual scores follow:
East Liverpool—Allison, Powell and Bloor, forwards; Rigby, center; Watkin and Chadwick, guards.
Freedom—Leach, West and Pearson, forwards; Pearson and West, center; Bane and Gottman, guards.
Goals—Allison 3, Powell 2, Rigby 16, Bloor 4, Chadwick 1, Bane 1, Leach 1, Fouls—Chadwick 5, West 3.
Referee—Zang.
Timer—Gardner.

Basket Ball Notes.

No word yet from Southside. May be 15 straight victories has them bluffed.

Rigby now has an average of seven field goals for the 22 games he has played in.

East, the Geneva forward, could not play last night with the Freedom five, owing to injuries received in the game with Southside.

Counting last night's game the locals have scored more than twice the number of points made by opponents. The figures are 880 to 421.

Geneva Here Next.

The Geneva college five will be here next Tuesday night for a game with the locals. This is one of a trio of teams local fans have been clamoring for all season, the two other being Southside and the Buffalo Germans.

Geneva and Southside have met twice this year and each team has won a game, and for this reason the college players will be greeted by a big crowd.

Any team that has beaten Southside will draw well here. The preliminary game on that evening will be played by the Juniors and the Sterlings.

Juniors Beaten.

The Juniors were beaten last night by the Beaver Midgets in one of the most exciting games of the season. In the last half the score was frequently tied and then the teams alternated in taking the lead. Just before the whistle sounded the visitors made two goals and won the game.

Manager Jim Collins has just announced his southern itinerary. The Boston Champs play at Atlanta, Ga., March 28, 29 and 30; at Montgomery, Ala., March 31 and April 1 at Mobile.

SAW SPOTS BEFORE HIS EYES

Peculiar Condition of Adolph Koehler, Living in Canton.

The following letter from Mr. Adolph Koehler, of 1211 Washington avenue, Canton, Ohio, should be of interest to sick people generally in this city. It tells of the deplorable condition in which he found himself after several years of suffering and also tells of the efforts he made to secure relief and how he was finally successful.

Gentlemen—I have been a sick man for a number of years and have tried a great many remedies in the hope of obtaining some relief, but nothing seemed to benefit me. I got steadily worse, until, within the last three months, I was almost forced to stop working. I had headache constantly and dizzy spells so that I would have to hold on to something to keep from falling. If I moved suddenly I would see spots before my eyes, and the least exertion tired me out. I had a dull pain in the lower part of my back and could not stand long without having to sit down and rest. I would get up in the morning feeling as tired as when I went to bed. I finally bought a bottle of Dr. Cooper's New Discovery Medicine. I have taken it and am thankful to say my trouble has left me. I wouldn't take \$500.00 for what the medicine has done for me. Yours truly, ADOLPH KOEHLER.

Mr. Koehler is only one of thousands who have been cured by this remarkable remedy. If you are a sufferer and have that dull, dragging feeling mentioned in this letter, get a bottle from your drugist and you will obtain almost instant relief. If the medicine fails to benefit you the Cooper Medicine Co., of Dayton, O., will refund your money without question.

FLOOD CREST HAS PASSED.

Ohio River Towns Suffer Considerably from High Water.

Wheeling, W. Va., March 5.—The sharp decline in the temperature undoubtedly caused the maximum stage of water here to be somewhat less than it would otherwise have been. At 6 o'clock last night the 39-foot mark was reached and after remaining stationary for several hours the water began to gradually recede.

Based on the reports from Pittsburgh preparations had been made for a stage of 42 to 45 feet. A large portion of the island and the south side, nearly all of Benwood and sections of Bellaire, Bridgeport and Martins Ferry are under water, and there is considerable suffering on account of the flood. The water has invaded all the industrial plants along the river front and it will be several days before the mills can resume. The damage will not be heavy except in the loss of time to employers and workmen.

Clarence Stetson, aged 19, was removing members of his family from the Ohio to the West Virginia side of the river in a boat and was run down by the packet Ruth, which fractured his arms and injured him internally. He died within an hour.

SOLD HIS WIFE AND BABES.

Husband Trades Them to Brother for Two Fishing Nets.

Norfolk, Va., March 5.—When John Outlaw of Currituck county, N. C., became tired of his wife and two children some weeks ago he sold the trio, together with all his love and affection for them, to his brother, Jerome Outlaw. He received in exchange two fishing nets. The matter was reported to the authorities and warrants were sworn out.

The trial occurred at Currituck. It developed the fact that John Outlaw did not think there was anything wrong in the affair. Neither did Mrs. Outlaw nor Jerome Outlaw. When John Outlaw became aware that there was a possibility of the transaction being annulled by the court he gathered up his fishing nets and decamped. Jerome and Mrs. Outlaw were found guilty of unlawful cohabitation, but as the children are dependent upon them for support no penalty was inflicted.

BUSINESS IMPROVES

Slow But Steady Gain Apparent in Iron and Steel Industry.

DUN'S WEEKLY TRADE REVIEW

Continued Cold and Storms Retard

Distribution—Plenty of Buyers in the Market for Spring Goods—

Large Sale of Pig Iron.

New York, March 5.—R. G. Dun & Co.'s weekly review of trade says: Business continues to improve despite low temperatures and high prices. Weather conditions have been singularly unpropitious, deep snow retarding distribution of merchandise and excessive cold delaying the opening of spring trade and structural work. Yet retailers are making extensive preparations and plans are submitted for numerous building operations. Prospects have improved on the Pacific coast, where much needed rain has fallen, and reports from the south indicate exceptional prosperity. Buyers continue to arrive at the leading markets, but the volume of trade is restricted by high prices, particularly for cotton goods.

Railway earnings for February were 2.2 per cent less than last year, bad weather restricting traffic.

The iron and steel industry has made progress in the right direction and the prospect is brighter than it has been at any time during the winter. Certain special branches of the industry are notably vigorous, strength and activity appearing in merchant pipe, plates and bars. A large purchase of Bessemer pig iron was made by the leading interest at \$13, Valley furnace, equivalent to \$13.85 at Pittsburgh. This represents the first definite advance, and is encouraging, although only amounting to 25 cents a ton. The sale is on an exchange basis, the purchaser trading coke for pig iron, the same as was done in 1894 to help the market. Several smaller contracts were effected on the same basis, bringing total sales to about 150,000 tons.

An abundance of buyers in the dry goods market failed to produce any large volume of business, although there is a disposition to advance bids. Recovery in the raw material corrected whatever tendency there was last week to make concessions on forward business and the average of cotton goods is at the highest point of the season. This naturally checks operations for the future, particularly in export trade, which is very dull. Domestic prices are weaker than is explained by the seasonable deterioration in quality.

Leather is less active, supplies accumulating, except of harness leather, which is scarce and firm. New England shoe shops are shipping less freely and receiving fewer orders than a year ago.

Failures this week in the United States were 236, against 240 last week, 287 the preceding week and 229 the corresponding week last year.

THREE TRAINS ARE LOST.

Somewhere in Montana They Have Been Buried for Two Weeks.

Lewistown, Mont., March 5.—Somewhere between here and Lombard three trains, one freight and two mixed passengers, have been buried in snowdrifts for two weeks.

For three weeks the railroad to Lewistown, the famous "jawbone" road of Central Montana, running 115 miles through Fergus county, has been completely blocked. Snow plows with big gangs of men have been bucking the drifts night and day, but snow falls almost daily. The missing trains have not been reached and it is probable they will not be found until a thaw sets in. The two mixed trains carried about 20 passengers. The crew of the freight managed to reach Harlow and procure provisions and it is believed the passengers on the other trains have reached some of the ranches, where they are being taken care of.

It Must Come.

As inevitable as the changing seasons of the year is the change which comes to every woman. And just as one anticipates the changes of other seasons it is wise to anticipate this change of season and prepare for it. In this way the discomforts and distresses suffered by many women at the period of change can be avoided or overcome.

Dr. Pierce's Favorite Prescription, a medicine for every season of woman's life, will naturally meet the needs of women at this period of change. It cures the physical ills and relieves the mental anxiety and depression usually associated with this critical period. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

J. S. Carlisle, Esq., of Manchester, Coffee Co., Tenn., writes: "I have been using your medicine for the last sixteen or eighteen years in my household. I am superintendent of the Coffee County Poor House and Assistant Cashier of the Coffee County Bank. I have used your 'Favorite Prescription' and 'Pleasant Pellets' for the diseases for which they are recommended, but I never used them until I saw your wife's life at the time of change of life. I have been recommending your medicine to many afflicted women and have also guaranteed that if it did not cure I would pay back the money spent for it. I have told our druggist that if the people come back and say they have never found anything to equal the 'Favorite Prescription' for diseases of women."

ONLY TWO FIELD GOALS

Freedom Narrowly Escaped a White-
wash in the First Half and Best
They Could Do Was One Field Goal
in Each Round.

The East Liverpool basket ball five made it 15 straight last night by defeating Freedom in a one-sided, but intensely interesting game. The local five is showing better form as the season progresses and they played so fast last night that the visitors could not stand the pace.

The first half under national rules was one of the prettiest exhibitions of the season on the part of Captain Chadwick and his men. The half started in a rush and for the first five minutes it looked as though Freedom would prove a dangerous adversary but the goals began to pile up while Freedom failed to score. Never has the local team played a better offensive game and the visitors' chances for shooting were few and far between. As the minutes passed and they failed to make a goal it looked as though the locals would establish a new record for the season by scoring a white-wash, but unfortunately Chadwick slipped and fell while pursuing Bane, who was dribbling the ball down on the floor, and that player made the first and only field goal in the half. One foul throw gave the visitors a total of 3 for the half.

Although Rigby scored the greatest number of goals it would be difficult to pick out one player that excelled. There was not a pause in the play and the interference was so perfect that Freedom failed to employ anything that resembled team work. Watkin played Leach, the 200 pound forward of the Geneva five, and did it so well that the big fellow not only failed to score, but bested at every point. Chadwick has not played a better game this season and he deserves a full measure of credit in keeping the ball away from the visitors. Rigby came near equalling his great goal record, made in the Alliance game, but he missed several shots. Ten in the first half and six in the second half was his record. Bloor and Allison were up to Chadwick's standard at offensive play and both made some pretty good throws. Powell, who relieved Allison in the second half, kept up the fierce pace and played Pearson to a standstill.

Pearson, who is quite a favorite here, is a clean player and he won additional friends among the crowd. His nice work was very highly complimented, but he was no match for Rigby at center and he was relieved by West. The game was clean throughout and the victory was easily landed

Cases After Five to Thirty
Physicians Failed.

When an experienced physician offers to give away his New Treatments for diseases of the heart, nerves, stomach, or dropsy, it is conclusive evidence that he has great faith in them. And when hundreds of prominent men and women freely testify to his unusual skill and the superiority of his New Special Treatments his liberality is certainly worthy of consideration.

That Dr. Franklin Miles is one of the world's most successful physicians is proven by thousands of wonderful cures of well known people. One patient cured after failure of eleven Grand Rapids physicians, one after being given up by 30 physicians, one after failure of 22 physicians, another after nine of the leading doctors in New York city, Philadelphia and Chicago failed.

The eminent Rev. W. Bell, D. D., of Dayton, Ohio, general secretary of foreign missions, writes editorially in the State Sunday School Union: "We desire to state that from personal acquaintance we know Dr. Miles to be a most skillful specialist, a man who has spared neither labor nor money to keep himself abreast of the great advancement of medical science."

If I moved suddenly I would see spots before my eyes, and the least exertion tired me out. I had a dull pain in the lower part of my back and could not stand long without having to sit down and rest. I would get up in the morning feeling as tired as when I went to bed. I finally bought a bottle of Dr. Cooper's New Discovery Medicine. I have taken it and am thankful to say my trouble has left me. I wouldn't take \$500.00 for what the medicine has done for me. Yours truly, ADOLPHE KOEHLER.

Mr. Koehler is only one of thousands who have been cured by this remarkable remedy. If you are a sufferer and have that dull, dragging feeling mentioned in this letter, get a bottle from your druggist and you will obtain almost instant relief. If the medicine fails to benefit you the Cooper Medicine Co., of Dayton, O., will refund your money without question.

FLOOD CREST HAS PASSED.

Ohio River Towns Suffer Considerably from High Water.

Wheeling, W. Va., March 5.—The sharp decline in the temperature undoubtedly caused the maximum stage of water here to be somewhat less than it would otherwise have been. At 6 o'clock last night the 39-foot mark was reached and after remaining stationary for several hours the water began to gradually recede.

Based on the reports from Pittsburgh preparations had been made for a stage of 42 to 45 feet. A large portion of the island and the south side, nearly all of Benwood and sections of Bellaire, Bridgeport and Martins Ferry are under water, and there is considerable suffering on account of the flood. The water has invaded all the industrial plants along the river front and it will be several days before the mills can resume. The damage will not be heavy except in the loss of time to employers and workmen.

Clarence Stetson, aged 19, was removing members of his family from the Ohio to the West Virginia side of the river in a boat and was run down by the packet Ruth, which fractured his arms and injured him internally. He died within an hour.

SOLD HIS WIFE AND BABES.

Husband Trades Them to Brother for Two Fishing Nets.

Norfolk, Va., March 5.—When John Outlaw of Currituck county, N. C., became tired of his wife and two children some weeks ago he sold the trio, together with all his love and affection for them, to his brother, Jerome Outlaw. He received in exchange two fishing nets. The matter was reported to the authorities and warrants were sworn out.

The trial occurred at Currituck. It developed the fact that John Outlaw did not think there was anything wrong in the affair. Neither did Mrs. Outlaw nor Jerome Outlaw. When John Outlaw became aware that there was a possibility of the transaction being annulled by the court he gathered up his fishing nets and decamped. Jerome and Mrs. Outlaw were found guilty of unlawful cohabitation, but as the children are dependent upon them for support no penalty was inflicted.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Sent for free. Address: F. J. CHENEY & CO., Toledo, O. DUN'S WEEKLY TRADE REVIEW

Continued Cold and Storms Retard
Distribution—Plenty of Buyers in
the Market for Spring Goods—
Large Sale of Pig Iron.

New York, March 5.—R. G. Dun & Co.'s weekly review of trade says:

Business continues to improve despite low temperatures and high prices. Weather conditions have been singularly unpropitious, deep snow retarding distribution of merchandise and excessive cold delaying the opening of spring trade and structural work. Yet retailers are making extensive preparations and plans are submitted for numerous building operations. Prospects have improved on the Pacific coast, where much needed rain has fallen, and reports from the south indicate exceptional prosperity. Buyers continue to arrive at the leading markets, but the volume of trade is restricted by high prices, particularly for cotton goods.

Railway earnings for February were 2.2 per cent less than last year, bad weather restricting traffic.

The iron and steel industry has made progress in the right direction and the prospect is brighter than it has been at any time during the winter. Certain special branches of the industry are notably vigorous, strength and activity appearing in merchant pipe, plates and bars. A large purchase of Bessemer pig iron was made by the leading interest at \$13. Valley furnace, equivalent to \$13.85 at Pittsburgh. This represents the first definite advance, and is encouraging, although only amounting to 25 cents a ton. The sale is on an exchange basis, the purchaser trading coke for pig iron, the same as was done in 1894 to help the market. Several smaller contracts were effected on the same basis, bringing total sales to about 150,000 tons.

An abundance of buyers in the dry goods market failed to produce any large volume of business, although there is a disposition to advance bids. Recovery in the raw material corrected whatever tendency there was last week to make concessions on forward business and the average of cotton goods is at the highest point of the season. This naturally checks operations for the future, particularly in export trade, which is very dull. Domestic prices are weaker than is explained by the seasonal deterioration in quality.

Leather is less active, supplies accumulating, except of harness leather, which is scarce and firm. New England shoe shops are shipping less freely and receiving fewer orders than a year ago.

Failures this week in the United States were 236, against 240 last week, 287 the preceding week and 229 the corresponding week last year.

THREE TRAINS ARE LOST.

Somewhere in Montana They Have
Been Buried for Two Weeks.

Lewistown, Mont., March 5.—Somewhere between here and Lombard three trains, one freight and two mixed passengers, have been buried in snowdrifts for two weeks.

For three weeks the railroad to Lewistown, the famous "jawbone" road of Central Montana, running 115 miles through Fergus county, has been completely blocked. Snow plows with big gangs of men have been bucking the drifts night and day, but snow falls almost daily. The missing trains have not been reached and it is probable they will not be found until a thaw sets in. The two mixed trains carried about 20 passengers. The crew of the freight managed to reach Harlow and procure provisions and it is believed the passengers on the other trains have reached some of the ranches, where they are being taken care of.

ABSURD METHODS

said the Romoc man, expatiating on the means many people take to purify their blood. Don't you realize, he continues, that most so-called blood medicines are loaded with deadly poisons? By their use you simply force one poison out and take another just as bad or worse into your system. This is like the Indian whose blanket was too short to cover his feet, so he cut off six inches from the top and sewed it onto the bottom. You accomplish just as much good by the use of deadly mineral poisons as he did. It is different with Romoc. Romoc is Nature's remedy. There is no poison in it. Not a drop of alcohol is in this solution.

Whiskey and Beer Habit

PERMANENTLY CURED BY

"ORRINE"

A SAFE, SURE AND HARMLESS SPECIFIC.

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupifies the digestive organs, thus destroying the digestion and ruining the health. No "will power" can heal the inflamed stomach membrane. "ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. A sanitary treatment necessary. "ORRINE" can be taken at your own home without publicity. Can be given secretly if desired.

CURE GUARANTEED OR MONEY REFUNDED.

Mr. E. T. Sims, Brooklyn, N. Y., writes: "I am a married man and have been a sufferer from the effects of 'ORRINE' for many years. It is a wonderful and marvelous cure for the drink habit." Mrs. J. W. Smith, New York City, writes: "ORRINE cured my husband, who was a steady drinker for many years. He now has no desire for stimulants, his health is good and he is fully restored to manhood. He used only five boxes of 'ORRINE'." Mrs. W. L. D. Helena, Mont., writes: "I have waited one year before writing you of this permanent cure of my son. He took katarium treatment, as well as other advertised cures, but they all failed until we gave him 'ORRINE'. He is now fully restored to health and has no desire for drink." Mr. H. L. E. Kansas City, Mo., writes: "I am satisfied that 'ORRINE' is a disease and the world is the world. 'ORRINE' will cure any case if taken as directed."

CHAPTER IV.

FOR some time the two in the coach rode in silence. The way, when they had left the clustered shipping of the town behind them, wound along the red rimmed bank of the river where plethoric crows cawed to their mates. The afternoon had come with a vivid sky burning to a char on the horizon. The young secretary gazed out of the open window, and through it the wind came, sweet with the clean smell of dry grass. Anne stole a side glance from under drooping lids.

"You are deeply occupied, monsieur," she said at length, with a lurking thread of sarcasm. "I should not marvel since all Virginia lies just outside."

He threw her a smile that softened his clean cut mouth and lightened his eyes. "All Virginia is not outside the window—for me, mademoiselle."

With a woman it is the new sensation which captivates. Mistress Tillotson had been used enough to pretty speeches. The beaus of half Virginia had recited quatrains to her fan. Here was an unaccustomed subtlety.

"Yet your eyes were there," she rejoined. "Had your thought fled still farther? Oversea, mayhap?" He met her look full eyed. "Shall I tell you of what I was thinking? I have seen many fair ladies in my own land, gracious and kind belike, but few whose charity could reach to an object so far beneath them as a bondswoman; fewer yet whose graciousness would lead them to sue for pardon from a stranger—like me."

"I," she answered more lightly, "was thinking of how the frost has set the woods afire. Saw you ever such copper reds and russet golds? And those wedges of pink rock—they have the look of raspberries crushed in curdled milk. God is spendthrift of his hues."

The country through which they passed was hung with the marvelous colors which a Virginian autumn lavishes so prodigally. There were the marmos of the wild rose stalk, the ripe brown seams of butternut bark and the shifting tints the sun lends the frosted alder, the gray lichen and bronze fir spotted with scarlet creeper and stippled mosses like saffron butterflies. Here and there showed the splash of a bluebird's wing or the vermilion crest of a kingfisher.

"It is very fair," he said, "as it should be."

Again a silence fell, while the road swung across forest stretches, under springing roofs through which the sky swam in dazzles.

At last she spoke demurely: "And of what else were you thinking, monsieur?"

"I was thinking what you are most like. Some ladies are like snow mountains that stand very far off, white and beautiful, but cold—so cold you cannot warm them, and so high. Some are like blossoms, sweet and perfumed, made for only a nosegay in the evening. When the sun is hot they wither. Some are like a song that one hears and thinks lovely—hums it awhile and forgets."

"And which of these am I, sir?"

"You are like a sword—slim and shining and straight and yet delicate. It took centuries to make the sword, mademoiselle. It will bend, bend, but not break. It is sharp and cold to all the world save one—the one who wears it at his side. But to his touch it becomes alive to ward him harm, to guard his life, to keep his honor."

"An we were truly swords," she flashed, "we ladies of Virginia, there were less of bitterness in this fair colony of ours."

"So the sword has the temper!" he cried, his eyes kindling. "It is not for ornament alone! And these troubles of the colonies—they strike so deeply then? Do even the ladies of a land such as this feel the sting?"

She gazed out toward the low knobbed hills lined against the deepening sky, her elbow on the window sill, her chin in her gloved hand, silent. Above them in sun stained air shreds of torn clouds folded away like drums. From near by came the startled flutter of field larks and the rustle of ripening corn.

The road curved quickly and lurched into a pine forest, where the day filmed to twilight and the hoots fell noiselessly into a carpet of brown needles. It was a pleasant way, full of mingled odors, all strangely pure and agreeable, where clamorous wood things piped to a musical silence.

"'Tis not all Virginia, after all, that one sees here, monsieur," she said slowly after a time. "Far to the west of us is a vast region, raw, full veined and of scattered tenants. There are great mountain peaks and ravines, wastes waiting seed and hoe, plateaus and woodlands where the musket and the ax are never silent. Deer run in the brake. Wolves race along the ridges. There strong men have lived and toiled and fought back the savages and cleared themselves homes. Their

children have grown up unyielding like the granite in the mountain's heart, untrammelled like its torrents. And this life amid the silences has taught them a justice that may not be bought, a strength that knows neither fear nor favor. The region you see here, monsieur, to this great weave I speak of is but the raveled edge.

"Here broad rivers run brackish with tidewater, and ships lie at the wharfs. They bring to our manor houses all of luxury and refinement which Virginia tobacco can buy. And here the planters—for Virginia was first settled by gentlemen, monsieur—choose to put on courtliness and dress in gold lace and make a bit of London for themselves on the edge of the wilderness."

"Just beyond those hills to the southward is Williamsburg, the capital they have built. It has a college and a court. There the cocks are ever fighting, the horses are ever running, the fiddles are ever playing, and there in his palace sits the royal governor his majesty is pleased to put over his colonials, levying on their leaf and sundering at their backsides."

"The Earl of Dunmore?"

"Aye, my lord the earl. Think you he knows one whit more of this Virginia than does the king, a thousand leagues away? He drinks in his palace and drives his white horses and bullies his burgesses, the representatives whom the people have elected. They must pleasure him or he dissolves them. The king has forgot that the Virginians are Englishmen and that Englishmen love freedom."

"And Englishwomen, too," he said. "We can do little," she went on. "We wear no swords. All we can do is to hope and to wait."

"Little!" There was a thrill in his tone. "Little! You call such a hope, such a feeling, small? You think it valueless or weak? Ah, mademoiselle, know you what makes a lady adorable to a man's heart, what makes him worship her? It is that she inspires him; that it is not to dress for her or bow or sing her little songs, but to toil, to struggle, to fight, to die maybe—something high like the stars. Man has a want for two things—a cause to fight for first, and then—a one, a perfect one, a loved face, to wait and smile on him when he has won."

"With this a man could do miracles. Ah, it could make of a poor nobody a king, an emperor! I, even I, mademoiselle, a stranger from another land—I could fight so well for these great things, for this Virginia of yours, if I—If I—"

He paused. There was a tense moment. Then the air filled itself with a long, dull sigh, and on its train came a sudden snapping of dead boughs, an unjoined, cracking report, and both looked up startled.

A strange faraway circumstance had had part in this. Indians had not been used to fell trees as did their white conquerors. Instead they cut deep rings into the bark and let nature be axman. These trunks fell when dry rot had done its work, sometimes in storms, often when no wind stirred, crashing in a forested silence. A quarter century before perhaps a Mattaponi brave had thus girdled a great pine with his tomahawk, and it was this dead tree, its limbs now white as bleached wolf bones, which was now, after its time, leaning to its fall from the roadside.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. BEEF TRUST ARRIGNED.

Consumers Said to Be Suffering from Stiffed Competition.

Washington, March 5.—The house had under consideration the Indian appropriation bill, the reading of which for the purpose of amendments was pending on adjournment. During the general debate on the bill Mr. Martin, a Republican member from South Dakota, addressed the house on his resolution directing the secretary of commerce and labor to investigate the causes for the differences which exist between the cost of live cattle and dressed beef.

He prefaced his statements with a high tribute to Attorney General Knox and by saying that he was not one who went into hysterics on hearing the word trust. But while this was true, he believed that a monopoly exists in one of the big food products which should be investigated by the department of commerce and labor. He asserted that so far as the rights of the producer and consumer are concerned they are even worse than be-

fore the injunction was secured against the beef concerns, and in support of this statement cited the experiences of stockmen in the markets. He opposed a repeal of the forfeiture clause in the Sherman anti-trust law.

Practically the entire time of the senate was given to consideration of the question of the selection of a site for a naval training station on the great lakes. Most of the senators from states bordering on the lakes participated in the discussion.

The controversy arose over an effort to secure an amendment a provision authorizing the appointment of a new commission to select a site. This amendment was offered by Mr. Charles, and its origin was due to the fact that a former commission had given preference to Lake Huron in Illinois. The principal speakers were Senators Charles and Spooner, who presented the advantages of Racine, Wis.; Mr. Hopkins, who spoke for Lake Huron, and Mr. Foraker, whose contentions were in the interest of Put-in-Bay, Ohio. The committee amendment was so modified as to make it apply to all the great lakes and not alone to Lake Michigan, but Mr. Charles' amendment was not acted on.

PRINCE NOT RESPONSIBLE.

Brutal Murder of Native by Nobleman Goes Unpunished.

Berlin, March 5.—The military court of the First Guards Division, which recently began an inquiry into the sanity of Lieut. Prince Prosper Vol. Arenberg, who is serving a term of imprisonment for the murder of a native, suspected of being a British spy, while commander of a station in German Southwest Africa, decided that the prince was mentally irresponsible when he committed the murder and therefore declared his sentence of death and subsequent commutation to 15 years' imprisonment to be null.

The court listened to the reading of the testimony on which the prince was convicted, dealing exclusively with the killing of the native, "Willy" Cain, who was arrested on the prince's suspicion that Cain meant to assassinate him. The testimony showed that the prince shot Cain with a revolver as the latter lay bound and caused a soldier to run a bayonet through Cain's heart, the prince himself taking the ramrod and twisting it around in the bullet wound, which was in the head. One motive for the crime, mentioned in the testimony of private soldiers formerly under the prince's command, was his infatuation for a comely Damatira woman, Yokbeth, Cain's wife, who had rejected his attentions. The prince after the murder asked Yokbeth to enter his household and she replied: "And see the murderer of my husband every day? No."

"And see the murderer of my husband every day? No."

"With this a man could do miracles. Ah, it could make of a poor nobody a king, an emperor! I, even I, mademoiselle, a stranger from another land—I could fight so well for these great things, for this Virginia of yours, if I—If I—"

Brief Notes of a Personal Nature And of Matters About Town.

An Illustrated Address—A very interesting service at St. Stephen's Episcopal church Sunday evening. Rev. Edwin Weary giving an illustrated address on "Reciprocity." Special singing by the vested choir. A very imposing part of the service will be the unveiling of the "Cross Chart" at the close of the services.

A Fine Horse—Robert Hailes has just received a fine bred stallion from Lexington, Ky. The horse is by the great race horse, Regal Wilkes, 2:11 3/4, once the world's champion two-year-old trotter, and son of the great Guy Wilkes; dam by the great Onward, sire of 176 horses with records better than 2:30; second dam by the famous Strathmore. The horse is fine looking and is said to be very fast.

Labor Questions—Tomorrow at 3 p. m., Rev. Leslie Hawk, at the First U. P. church, will deliver an address on "The Best Remedy for Labor Troubles." All labor organizations of the city are invited. Rev. Mr. Hawk has considered well both sides of the labor question, and an address on this subject by a man of his intellectual power will be of interest to all citizens of East Liverpool. A very enthusiastic meeting is anticipated.

THE HOOPOLE RECORD HAS BEEN BROKEN

Steamer Greenland Brought Over 61,000 of These Useful Sticks Here—River Notes.

The steamer Greenland broke the record last night with a consignment of hoop poles for this city, the number reaching 61,035. Prior to this shipment the record was held by the Greenland, when the number was 52,000. The Greenland arrived here last night with an immense trip and was at the local wharf four hours unloading freight for this city. She left for Pittsburgh and will be down tonight at 8 o'clock.

The Ben Hur reached here at 10 o'clock last night and laid over until morning on account of the high water. She has made her last trip on these waters as she is to enter the Cincinnati and Parkersburg trade. The Avalon will take her place.

The river is now well within its banks and it is not expected that navigation will be further interrupted.

The Virginia, recently damaged at Steubenville, was speedily repaired and continued its trip.

THE AMENDMENT TO CONSTITUTION

Proposed Article Which Provides for Only Fall Elections In Ohio.

TERMS OF OFFICE FIXED

Columbus, March 5.—(Special.)—The following is the proposed bill providing for a new article in the constitution:

Section 1. Elections for state and county officers shall be held on the first Tuesday after the first Monday in November in the even numbered years; and all elections for all other elective officers shall be held on the first Tuesday after the first Monday in November in the odd numbered years.

Section 2. The term of office of governor, lieutenant governor, attorney general, secretary of state and treasurer of state shall be two years, and that of the auditor of state shall be four years. The term of office of the judges of the supreme court and circuit court shall be such even number of years, not less than six years, as may be prescribed by the general assembly; that of the judges of common pleas court shall be six years, and of the judges of the probate court four years, and that of other judges shall be such even number of years, not exceeding six years, as may be prescribed by the general assembly.

The term of office of the members of the board of public works shall be such even number of years, not exceeding six years, as may be so prescribed; and the term of office of all elective county, township, municipal and school officers shall be such even number of years, not exceeding four years, as may be so prescribed. And the general assembly shall have power to so extend existing terms of office as to effect the purpose of section 1 of this article. Any vacancy which may occur in any elective state officers, other than that of a member of the general assembly or governor, shall be filled by appointment by the governor until the disability is removed, or a successor elected and qualified. Every such vacancy shall be filled by election at the first general election for the office which is vacant that occurs more than 30 days after the vacancy shall have occurred. The person elected shall fill the office for the unexpired term. All vacancies in other elective offices shall be filled for the unexpired term in such manner as may be prescribed by law.

Section 3. Every elective officer holding office when this amendment is adopted shall continue to hold such office for the full term of which he was elected and until his successor shall be elected and qualified as provided by law.

Section 4. Every elective officer holding office when this amendment is adopted shall continue to hold such office for the full term of which he was elected and until his successor shall be elected and qualified as provided by law.

SOUTH SIDE ATTEMPT TO BLOW UP BIG ICE PLANT

A Dynamite Fuse Discovered in Time to Save the Property of James Mathews at Wellsburg.

A dastardly attempt was made this week to dynamite the \$18,000 ice and storage plant of James Mathews, near Wellsburg. On Wednesday afternoon a stick of dynamite was found close by the plant and attached to it was a 35-foot piece of fuse, leading down to the roadside. The dynamite and fuse had laid under the snow for some time and was not discovered sooner. Cattle tramping about has disarranged the position of the fuse and the stick, and it is supposed by some that the fuse had been ignited and trampled out by the cattle. The length of the fuse would have permitted the person firing it to walk about a mile before the dynamite was reached.

On the same day a box containing three sticks of dynamite and a roll of fuse was found in an exposed place in the First ward of Wellsburg, and it is supposed that it had been dropped there by the same parties who attempted to blow up the ice house.

The party who would perpetrate such an act must be of the very lowest calibre for Mr. Mathews, being one of the most genial whole-souled fellows in the country, was never known to have an enemy. He is said to have offered \$1,000 to know who the parties are.

CHESTER NOTES.

that the plumber should be made to bear the cost of the repair. President Taylor was in favor of revoking his license, but he was given the opportunity to arrange for paying for the repairs and will be allowed to continue working.

Upon the recommendation of Supt. Morley the board decided to ask for bids on new boilers, a steel stack and a grate fire front, all of which are to be used in the repair of the pumping station when it is raised from its present foundation. The stack is to be five feet inside diameter and 123 feet high, made from the very best steel obtainable for the purpose. One-third of the purchase price will be paid when the stack is delivered and inspected. One-third more will be paid when the stack is erected, and the balance when the stack has been accepted by the board.

The grate fire front must be made extra heavy to suit two 84-inch boilers, 20 feet long, each front to be made in three pieces, the center piece to be one extra heavy column, with the required bracket and saddle, with three one-inch rollers for boiler to rest on and expand on. Each column must have one poker hole and a door, and other necessities.

The specifications call for boilers 84 inches in diameter, 20 feet long, made of the very best forty-five thousand tensile strength steel. The city will prepare the foundations.

Whatever you want, call on us, we have it or can get it for you. We have a number of men, well versed with East Liverpool, who do nothing but show property to our customers. Let them take you out and acquaint you with the best properties at the lowest prices and the easiest terms to be had in the city.

STREETS IN NEED OF SPEEDY REPAIR

Continued from First Page.

The service board has arranged to inspect the entire city Monday morning and the members will then be able to present the conditions to council. While on the inspection tour the members will view the water works reservoir. It is reported to be in an extremely dangerous condition, the dirt on the south side of it having washed away.

HOME AFFAIRS

Brief Notes of a Personal Nature And of Matters About Town.

An Illustrated Address—A very interesting service at St. Stephen's Episcopal church Sunday evening. Rev. Edwin Weary giving an illustrated address on "Reciprocity." A special singing by the vested choir. A very imposing part of the service will be the unveiling of the "Cross Chart" at the close of the services.

A Fine Horse—Robert Hailes has just received a fine bred stallion from Lexington, Ky. The horse is by the great race horse, Regal Wilkes, 2:11 1/2, once the world's champion two-year-old trotter, and son of the great Guy Wilkes; dam by the great Onward, sire of 176 horses with records better than 2:30; second dam by the famous Strathmore. The horse is fine looking and is said to be very fast.

Labor Questions—Tomorrow at 3 p. m., Rev. Leslie Hawk, at the First U. P. church, will deliver an address on "The Best Remedy for Labor Troubles." All labor organizations of the city are invited. Rev. Mr. Hawk has considered well both sides of the labor question, and an address on this subject by a man of his intellectual power will be of interest to all citizens of East Liverpool. A very enthusiastic meeting is anticipated.

THE HOOPPOLE RECORD HAS BEEN BROKEN

Steamer Greenland Brought Over 61,000 of These Useful Sticks Here—River Notes.

The steamer Greenland broke the record last night with a consignment of hoop poles for this city, the number reaching 61,035. Prior to this shipment the record was held by the Greenland, when the number was 52,000. The Greenland arrived here last night with an immense trip and was at the local wharf four hours unloading freight for this city. She left for Pittsburgh and will be down tonight at 8 o'clock.

The Ben Hur reached here at 10 o'clock last night and laid over until morning on account of the high water. She has made her last trip on these waters as she is to enter the Cincinnati and Parkersburg trade. The Avalon will take her place.

The river is now well within its banks and it is not expected that navigation will be further interrupted.

The Virginia, recently damaged at Steubenville, was speedily repaired and continued its trip.

THE AMENDMENT TO CONSTITUTION

Proposed Article Which Provides for Only Fall Elections In Ohio.

TERMS OF OFFICE FIXED

Columbus, March 5.—(Special.)—

The following is the proposed bill providing for a new article in the constitution:

Section 1. Elections for state and county officers shall be held on the first Tuesday after the first Monday in November in the even numbered years; and all elections for all other elective officers shall be held on the first Tuesday after the first Monday in November in the odd numbered years.

Section 2. The term of office of governor, lieutenant governor, attorney general, secretary of state and treasurer of state shall be two years, and that of the auditor of state shall be four years. The term of office of the judges of the supreme court and circuit court shall be such even number of years, not less than six years, as may be prescribed by the general assembly; that of the judges of common pleas court shall be six years, and of the judges of the probate court four years, and that of other judges shall be such even number of years, not exceeding six years, as may be prescribed by the general assembly.

The term of office of the members of the board of public works shall be such even number of years, not exceeding six years, as may be prescribed; and the term of office of all elective county, township, municipal and school officers shall be such even number of years, not exceeding four years, as may be so prescribed. And the general assembly shall have power to so extend existing terms of office as to effect the purpose of section 1 of this article. Any vacancy which may occur in any elective state officers, other than that of a member of the general assembly or governor, shall be filled by appointment by the governor until the disability is removed, or a successor elected and qualified. Every such vacancy shall be filled by election at the first general election for the office which is vacant that occurs more than 30 days after the vacancy shall have occurred. The person elected shall fill the office for the unexpired term. All vacancies in other elective offices shall be filled for the unexpired term in such manner as may be prescribed by law.

Section 3. Every elective officer holding office when this amendment is adopted shall continue to hold such office for the full term of which he was elected and until his successor shall be elected and qualified as provided by law.

BALL MEN LOST ON THEIR APPEAL

Case of Calhoun et al. vs. Deidrick Dismissed at Plaintiffs' Cost.

The case of W. A. Calhoun et al. versus J. C. Deidrick et al., carried to the common pleas court from this city, has been dismissed at the plaintiffs' cost.

The details of the case are well known to old baseball enthusiasts in East Liverpool. J. C. Deidrick, who was pledged to give a certain amount of newspaper advertising in return for an interest in the old Eclipse baseball club, became dissatisfied with his bargain and on October 30, 1893, entered suit in the court of Justice Jethro Manley to recover \$129.23.

The case was set for trial on November 18, but was postponed from time to time for nearly a month.

Various reasons were assigned for the continuance and it was not until December 11, 1893, that the hearing was had. The case was tried to a jury and a verdict rendered for the full amount.

The records show that an execution was returned on December 26, 1893, showing that a grand stand, a quantity of wire netting and a few other articles had been levied upon and sold to J. C. Deidrick. The purchase price was \$74. The constable's return showed that \$59.85 of the amount had been paid to the justice and the remainder turned over to the plaintiff.

May 1, 1903, Deidrick came into the court of Justice Daniel McLane and asked that the old judgment be revived. According to the records in the case the justice could make no other decision than the one handed down. The defendants were not satisfied with the finding, and appealed to common pleas with the above result.

SOUTH SIDE ATTEMPT TO BLOW UP BIG ICE PLANT

A Dynamite Fuse Discovered in Time to Save the Property of James Mathews at Wellsburg.

A dastardly attempt was made this week to dynamite the \$18,000 ice and storage plant of James Mathews, near Wellsburg. On Wednesday afternoon a stick of dynamite was found close by the plant and attached to it was a 35-foot piece of fuse, leading down to the roadside. The dynamite and fuse had laid under the snow for some time and was not discovered sooner. Cattle tramping about has disarranged the position of the fuse and the stick, and it is supposed by some that the fuse had been ignited and trampled out by the cattle. The length of the fuse would have permitted the person firing it to walk about a mile before the dynamite was reached.

On the same day a box containing three sticks of dynamite and a roll of fuse was found in an exposed place in the First ward of Wellsburg, and it is supposed that it had been dropped there by the same parties who attempted to blow up the ice house.

The party who would perpetrate such an act must be of the very lowest calibre for Mr. Mathews, being one of the most genial whole-souled fellows in the country, was never known to have an enemy. He is said to have offered \$1,000 to know who the parties are.

CHESTER NOTES.
